## Acknowledgement

The Annual Education Statistics 2023 is produced with the support and input provided by the schools, Dzongkhag/Thromde Education Offices and various external agencies and organizations. Therefore, we would like to express our deep gratitude to all the principals, teachers and office assistants who took time to update timely data in the EMIS v3 for the academic year 2023.

Similarly, we would like to thank all the Dzongkhag/Thromde Education Officers and their staff for assisting with the data collection and validation process.

We would also like to extend our gratitude to the following agencies outside the Ministry of Education and Skills Development for providing additional information and relevant data on education for this report.

- Department of Treasury and Accounts, Ministry of Finance
- Dratshang Lhentshog
- Royal University of Bhutan
- Khesar Gyalpo University of Medical Sciences of Bhutan
- National Statistics Bureau

We would also like to acknowledge the Ministry's ICT Division and resource persons in their effort in successfully implementing, training, troubleshooting and streamlining the EMIS v3.

Lastly, we would like to thank the Departments/Divisions within the Ministry for providing key education data for this publication. We look forward to the similar support for our future publications.

## TECHNICAL DEFINITION OF KEY INDICATORS

### Total Net Enrollment Rate (TNER)

Total number of students of the official age group for a given level of education who are enrolled in any level of education, expressed as a percentage of the corresponding population. The new official school going age has been revised to 5 years with effect from 2020.

### Gross Intake Ratio (GIR)

Total number of new entrants in the first grade (PP) of primary education, regardless of age, expressed as a percentage of total official school going age children population.

### Net Intake Rate (NIR)

New entrants in the first grade of primary education who are of the official primary school-entrance age (5 years), expressed as a percentage of the population of the same age.

### Gender Parity Index (GPI)

Ratio of female to male values of a given indicator. The GPI measures progress towards gender parity in education participation and/or learning opportunities available for women in relation to those available to men.

### Gross Primary Enrollment Ratio

Total student enrollment in primary education (PP-VI), regardless of age, expressed as a percentage of the official school-age population (5-11 years) in a given school-year.

### Net Primary Enrollment Rate

Total number of 5-12 years old children in primary education (PP-VI) of the official age-group (5-12years) expressed as a percentage of the corresponding population (5-12 years) in a given school year.

### Repetition Rate

The number of repeaters in the given grade in a given year, expressed as a percentage of the total enrollment in the same grade in the previous year.

### Student Teacher Ratio

Average number of pupils per teacher at a specific level of education, in a given school-year.

### Transition Rate

The number of students admitted to the first grade of a higher level of education, in a given year, expressed as a percentage of the number of students enrolled in the final grade of the lower level of education in the previous year.

### Teacher Attrition Rate

Percentage of teachers at a given level of education leaving the profession in a given school year.

## Introduction

Availability of timely, consistent and reliable information is essential to support evidence-based planning and decision-making. In a large agency such as the Ministry of Education and Skills Development, the need for information is more critical. Accordingly, the Ministry has been publishing the Annual Education Statistics (AES) since 1988 to disseminate the latest information on education matters to all stakeholders.

Bhutan's education system aims to bring out the best in every child. We aspire for every person gone through the Bhutan Education system to embody the desired outcomes of education.

This document provides key information on all forms of education within the country. It consists of information on early childhood care and development (ECCD), school education, non-formal & continuing education, technical and vocational education and training, tertiary education within and outside Bhutan, monastic education, and other relevant support services.

The report also presents key gender-disaggregated education indicators, including information on enrolment patterns, types and level of schools, students, teachers, and student participation in selected education programmes.

The data and information in this report are intended to serve as a basis for planning, monitoring and evaluation of education and other relevant sectors, while also encouraging further research on education related issues.

### Data Collection

Data for the AES are collected through a web-based Education Management Information System (EMIS). The Dzongkhags/Thromdes and schools have direct access and rights to view and update their data. This has helped to improve the efficiency and quality of data collection, as compared to the conventional method of data collection.

The responsibility of data collection is shared among Dzongkhag/Thromde Education Offices and schools. The Dzongkhag/Thromde Education Offices coordinate with the schools under their jurisdiction. The schools ensure that all information related to their students, teachers, and infrastructures are updated and correct in the EMIS. The Dzongkhag and Thromde education offices are required to validate the EMIS data submitted by the schools before it is extracted for analysis. The details of the data collection, analysis, and dissemination cycle are as under:

## Annual Data Collection & Publication Cycle

| Month                | Activities   |
|----------------------|--|
| December-<br>January | The Ministry sends out notification to all Dzongkhag/Thromde Education Offices, and schools to start updating data on EMIS through online for the new academic session.  |
| February-<br>March   | Schools continue to update and validate the data online and submit to Ministry after further validation by the respective Dzongkhag/Thromde Education Offices.   |
| April - June         | The EMIS team further validates and cleans the data in the EMIS.<br><br>Data on tertiary education, non-formal, continuing education, technical education, monastic education, UG scholarships and privately funded students, private colleges/training institutes, school feeding programme, ECCD, special institutes, in-service teacher training, financial information are collected from different Departments within the Ministry as well as other agencies. |
| July -<br>September  | Data Analysis and Report Writing.  |
| October              | Publication and dissemination of the AES report.   |

### Data Processing and Analysis

Data on students, teachers and school infrastructure are extracted from the EMIS using standardized Query Language (SQL), which are then processed and analysed using combination of statistical software Stata and Microsoft Excel. The metadata used on this publication are derived from UNESCO Institute for Statistics (UIS). The metadata and Glossary can be found at

[http://uis.unesco.org/sites/default/files/documents/uis\\_glossary\\_education\\_20200921.pdf](http://uis.unesco.org/sites/default/files/documents/uis_glossary_education_20200921.pdf)

Until 2017, the single aged population for computing age specific indicators such as NER, GER, etc. had been based on the civil registration data maintained by the Department of Civil Registration & Census, Ministry of Home Affairs due to lack of relevant single aged population data. However, for this publication, these indicators were computed based on projected population data from Population and Housing Census of Bhutan 2017.

## Summary of Education Statistics 2023

Table A: Number of Schools, Institutes and Centers

| School/Institutes/Centers                   | Government | Private   | Total      |
|---|------------|-----------|------------|
| <b>Early Childhood Care and Development</b> |            |           |            |
| ECCD Centers                                | 442        | 83        | 525        |
| <b>School Education</b>                     |            |           |            |
| Primary Schools                             | 323        | 10        | 333        |
| Lower Secondary Schools                     | 38         | 1         | 39         |
| Middle Secondary Schools                    | 57         | 2         | 59         |
| Higher Secondary Schools                    | 79         | 14        | 93         |

## Chapter 1: Overview of the Education System

### 1.1. The Modern Education System

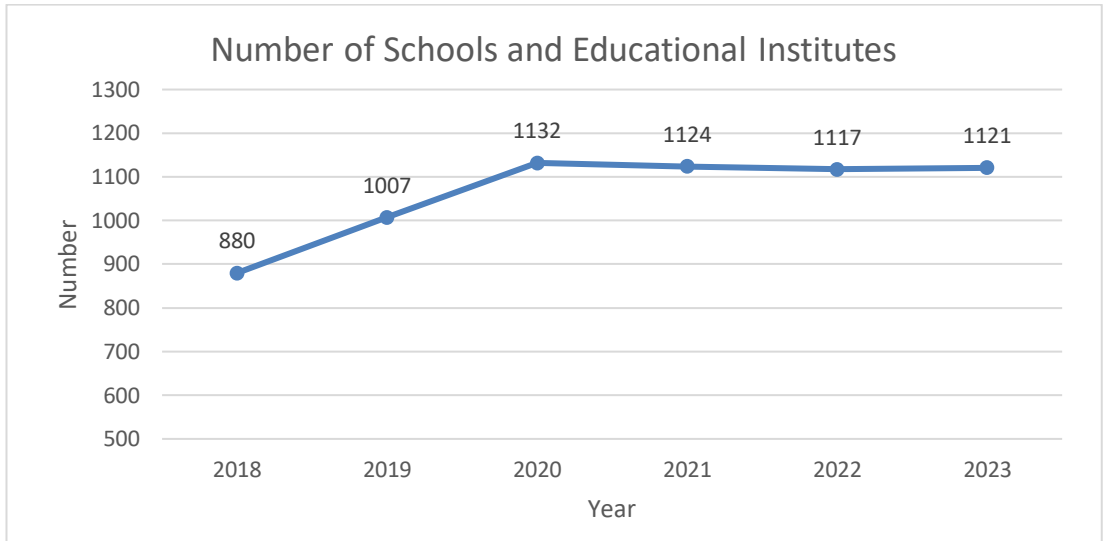

Education in Bhutan until 1950's was mainly monastic. Monastic education was the only source of formal literacy development, and many eminent Bhutanese scholars travelled to Tibet to study Buddhist scriptures. The only formal education available to Bhutanese students at the time (with the exception of a few private schools in Haa and Bumthang established in 1913/1914) was through Buddhist monasteries. Along with the monastic institutions, the growing numbers of nunneries still continue to provide traditional monastic education.

Today, the education system in Bhutan has three main forms: general education, monastic education and non-formal education. The general education system is by far the biggest and is now commonly seen as the formal educational structure. The current formal education system has seen substantial expansion since the first Five Year Plan (FYP) in 1961 to address basic educational needs, and develop human resources required for the socio-economic development of the country.

We seek to nurture the whole child and develop them into lifelong learners, with an enduring core of competencies to thrive in the 21st century. Our schools provide a rich diversity of learning experiences for our students. On top of building a strong foundation in literacy and numeracy, we also cater to their educational needs in physical, aesthetic, moral, social and emotional aspects, and develop them holistically.

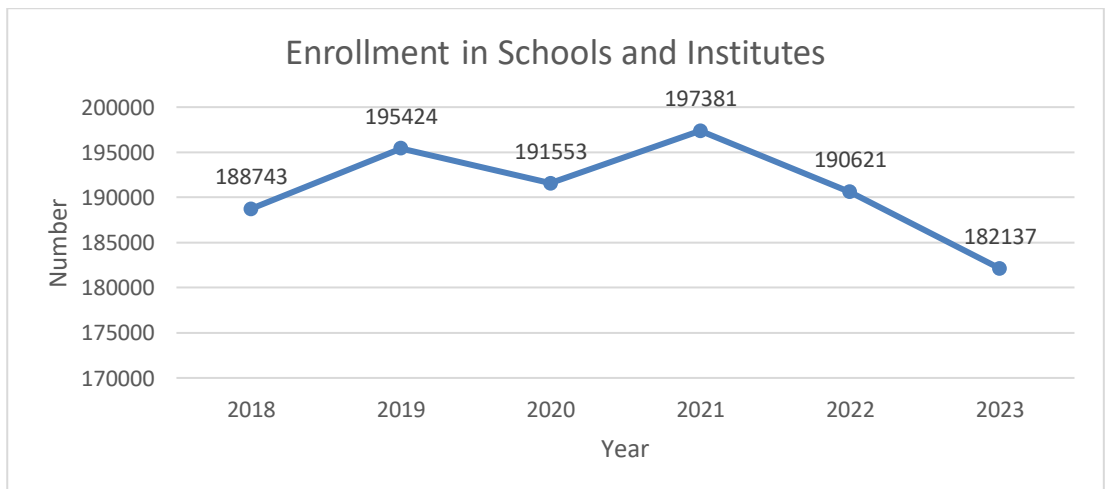

In addition, the basic and post literacy courses in Dzongkha and English are offered through non-formal education programme for people who could not attend general education or monastic education. From 2006, the Ministry has also initiated the Continuing Education programme for adults to upgrade their academic qualifications and promote lifelong learning.

Figure 1.1: Growth in Number of Schools and Educational Institutes

Within a period of about six decades, the modern education system has expanded from about 11 schools prior to 1961 to 1,121 schools and other educational institutes in 2023, spanning from early childhood care education to technical and vocational education, and tertiary education. Figure 1.1 shows the progressive growth of the total number of schools and institutes over a period of six years. The overall number of schools has decreased with merging of schools and closing down of redundant centers and extended classrooms. However, the total number of Educational Institutes has increased this year with opening of new ECCD centers.

Figure 1.2: Growth in Enrollment in Schools and Institutes

\*Includes early childhood care education, school education, special education, technical and vocational education, and tertiary education in the country.

The expansion of the education system has been triggered by rapid growth in the student enrollment. From about 400 students in the early 1960s, total enrollment at all levels of formal education and tertiary institutes within the country is 182,137 (excluding students studying outside Bhutan) in 2022. The enrollment trend as presented in the Figure 1.2, shows that there has been a slight increase of enrollment in 2019 which also attributed to the enrollment of all class X passed students into class XI from 2018. The trend line sees a drop of a few thousands in 2020 to rise further again in 2021 due to increased enrollment in tertiary institutes and ECCD centers.

Over the last two years, there has been a decrease in student enrollment for a variety of factors. These include students repeating the same grade with a policy shift to create class VIII examination as high stakes, students choosing to pursue their education abroad, especially at the tertiary level, and the government's decision to increase the weight of continuous assessment for Grade X from 35% to 40%. The reduction in enrollment is also attributed to the EMIS v3 which drastically removed duplication of data and inconsistent records.

Table 1.1: Growth in School Education Enrollment (2013-2023)

| Year        | Female       | Male         | Total         |
|-------------|--------------|--------------|---------------|
| 2013        | 86482        | 85909        | 172391        |
| 2014        | 86641        | 85752        | 172393        |
| 2015        | 86331        | 85071        | 171402        |
| 2016        | 85580        | 83980        | 169560        |
| 2017        | 84803        | 83289        | 168092        |
| 2018        | 84643        | 82465        | 167108        |
| 2019        | 84738        | 82048        | 166786        |
| 2020        | 87051        | 83755        | 170806        |
| 2021        | 86339        | 81985        | 168324        |
| 2022        | 83446        | 79090        | 162536        |
| <b>2023</b> | <b>79628</b> | <b>75531</b> | <b>155159</b> |

Table 1.1 shows the slight decline of enrollment in school education since 2010 till 2023. As of 2023, the total enrollment stands at 155,159 in grades PP to XII.

### 1.1.1 General Education Structure

The school-based education structure in Bhutan comprises of 13 years of free basic education from classes PP to XII. From 2019, with the initiative of the government, all class X passed students are provided scholarships to pursue their education in class XI in government and private schools, which were later all accommodated in government schools from 2021.

Thus, the general education structure comprises of seven years of primary education (PP-VI), and six years of secondary education (VII-XII). In 2020, due to policy shifts, the official school-going-age for enrollment in the first year of primary education has been reduced from 6 years to 5 years old.

After completing class XII, students can either continue their studies at the tertiary institutes within the country for a diploma or bachelor degree, or enter the job market. Those who do not qualify or attend public tertiary education institutes, either through government scholarships or self-financing, attend private tertiary education institutes in the country or abroad. The government also provides a limited number of ex-country scholarships to pursue higher education to meet the critical human resource requirements. Graduates from the Technical Training Institutes can continue their education at the tertiary level based on their competency and interest. The details of the education structure in line with ISCED is presented in the figure below.

The bilingual policy, a cornerstone of our education system, requires students to offer two languages: English language and an official Mother Tongue language. This enables them to connect with people from different backgrounds in a multi-cultural environment, and allows them to thrive in a diverse, globalized world. It also equips them with the language and cultural competencies to appreciate their culture and heritage

Figure 1.3: General Education Structure

| LEVEL | Early Childhood Care and Development | Pre-Primary                                       | I | II | III | IV | V | VI | VII                               | VIII                    | IX                      | X                     | XI | XII                              | 1st Year | 2nd Year | 3rd Year | 4th Year |

|       |                                      | VOCATIONAL EDUCATION SYSTEM (TTI/IZC) [ISCED 3-4] |   |    |     |    |   |    |                                   |                         |                         |                       |    |                                  |          |          |          |          |
|       |                                      | LABOUR MARKET                                     |   |    |     |    |   |    |                                   |                         |                         |                       |    |                                  |          |          |          |          |

### 1.1.2. Classification of School Levels in General Education

In primary education, primary schools provide a seven-year program spanning from Pre-Primary (PP) to grade VI. Additionally, Extended Classrooms (ECRs) offer a four-year education covering PP-III, often employing multi-grade teaching in smaller schools. These ECRs are situated in remote and dispersed communities and receive support from a nearby parent school. Their purpose is to bring educational services closer to these communities, reducing the commuting distance for young children. However, last year, 23 ECRs were shut down and integrated into their parent schools due to lower enrollment and strain on human and infrastructure resources.

At the secondary level, the classification of school levels depends on the final grade that is taught. Schools that have Class VIII as their final grade are called Lower Secondary, while schools that have Class X or XII as their terminal classes are referred to as Middle Secondary and Higher Secondary Schools respectively. The secondary schools have entry classes at PP, VII, IX or XI.

### 1.2 General Education Curriculum and Assessment

The overall objective of school education is to provide students with a well-rounded and comprehensive education that equips them with the knowledge, skills, values, and abilities necessary for personal growth, societal participation, and future success.

In primary education, students learn fundamental literacy and numeracy skills. They also gain knowledge about their country's history, geography, culture, traditions, and the basics of agriculture, health, hygiene, and population education. Moral and values education is emphasized through hands-on learning activities. Upon reaching class IX, students can select between Economics, Environmental Science, Agriculture and Food Security. In higher secondary education, students can choose from Arts, Commerce, Rigzhung, and Science as their main academic streams. Additionally, seven schools situated near technical training institutes have also introduced Technical and Vocational Education and Training (TVET) as an optional subject for classes IX and X.

The assessment from class PP-XII comprises of Continuous Formative Assessment, Continuous Summative Assessment, and Term End Summative Examination. The Bhutan Council for School Examinations and Assessment (BCSEA) conducts the national examinations for classes X and XII. Common examinations for Class VI and VIII, BCSEA provides questions, model answers and the marking schemes, while the examinations are conducted and evaluated by the schools.

Teachers form the core of Bhutan's education system. We are dedicated to fostering and inspiring our teachers to continuously improve and achieve their highest potential, aligning with their personal goals and passions. Our educators undergo thorough and research-backed pre-service training and have numerous chances for ongoing professional growth to enhance their skills. Teacher academies and headquarters divisions promote a robust ethos of professional excellence, rooted in the principle of teachers taking ownership of their development and engaging in long-term training for their professional advancement.

Figure 1.4: General Education Curriculum (PP-XII)

Note: The subject categories given above and offered in school education is dynamic and subject to change as per the need and time.

### 1.3 Educational Administration and Management

The responsibility for the administration of education in Bhutan is shared amongst the Ministry of Education and Skills Development (MoESD), BCSEA, Ministry of Industry, Commerce and Employment (MoICE), tertiary education institutes, Dzongkhags, Thromdes, gewogs and schools. Monastic education is the responsibility of the central monastic body and privately managed independent monasteries and nunneries.

The Ministry is responsible for policy formulation, planning and administration of school education (PP-XII) and non-formal and continuing education. School Curriculum Division is responsible for curriculum development and review while BCSEA carries out the national assessments.

The Dzongkhag and Thromde Administrations bear various duties in the education sector, encompassing both formal and informal education. These responsibilities involve tasks such as constructing and maintaining schools, supplying teaching and learning materials, allocating teachers within the Dzongkhag/Thromde, and executing national policies. These functions are executed by the Dzongkhag and Thromde Education Offices, all of which report to their respective governing agencies.

Following the integration of the Department of Workforce Planning and Skills Development into the MoESD, the department will continue providing technical and vocational education and training for class X graduates. Similarly, tertiary education institutions are responsible for offering higher education programs to class XII graduates.

## Chapter 2: Early Childhood Care and Development

### 2.1 Early Childhood Care and Development

It is crucial to implement early interventions for young children to ensure their all-encompassing growth and readiness for formal education. The Sustainable Development Goals (SDGs) for 2030 also acknowledge that early stimulation leads to longer school attendance, better academic performance, and increased income in adulthood. Furthermore, early child development naturally aligns with seven other goals, including poverty reduction, improvement in health and nutrition, gender equality for women and girls, and the eradication of violence.

Recognizing these benefits, the Ministry has launched early childhood care and development (ECCD) programs. The ECCD program is carried out through community-based ECCD centers, centers operated by private entities, non-governmental organizations (NGOs), and corporations. As of 2023, there are 525 ECCD centers with 13,012 children and 909 facilitators, as outlined in Table 2.1 and Table 2.2.

Table 2.1: ECCD Enrollment 2023

| Type of ECCD       | Centers    | Enrollment  |             |              |
|--------------------|------------|-------------|-------------|--------------|
|                    |            | Female      | Male        | Total        |
| Government         | 442        | 4810        | 4905        | 9715         |
| Private            | 61         | 1161        | 1331        | 2492         |
| NGO                | 4          | 27          | 23          | 50           |
| Workplace          | 18         | 380         | 375         | 755          |
| <b>Grand Total</b> | <b>525</b> | <b>6378</b> | <b>6634</b> | <b>13012</b> |

Data source: ECCD and SENDivision.

In 2023, the Net Enrollment Rate (NER) for Early Childhood Care and Development (ECCD), representing the percentage of children aged 3-4 years attending ECCD programs in the country, stands at 37.66%. Meanwhile, the Gross Enrollment Ratio (GER), which encompasses all children attending ECCD regardless of age, is at 54.47%. Comparatively, in the previous year, the (NER) for ECCD was slightly higher at 38.6%, while the (GER) was 45.6%. Notably, there has been an 8.87% increase in the (GER), attributed to a rise in ECCD enrollment from 10,872 to 13,012 children. However, this increase primarily affects the GER because ECCD now includes children of various ages. Despite the overall increase in enrollment, there has been a slight decrease in the NER compared to the previous year. This decline is mainly due to a significant portion of the enrolled children being either too young or too old to fall within the 3-4 years age range.

Table 2.2: ECCD Facilitators 2023

| Type of ECCD       | Facilitators |           |            |
|--------------------|--------------|-----------|------------|
|                    | Female       | Male      | Total      |
| Government         | 563          | 29        | 592        |
| Private            | 238          | 5         | 243        |
| NGO                | 7            | 0         | 7          |
| Workplace          | 63           | 4         | 67         |
| <b>Grand Total</b> | <b>871</b>   | <b>38</b> | <b>909</b> |

As of 2023, there are 909 facilitators working in ECCDs, of which 871 are female facilitators and 38 are male. 95.8% of the facilitators are female and only 4.2% male.

Table 2.3: Number of Facilitators by Qualification

| Qualification       | Female     | Male      | Total      | Proportion   |
|---------------------|------------|-----------|------------|--------------|
| Secondary Education | 599        | 26        | 625        | 68.8         |
| Diploma             | 207        | 4         | 211        | 23.2         |
| Bachelor's          | 69         | 4         | 73         | 8.0          |
| PG Diploma          | 0          | 0         | 0          | 0.0          |
| Certificate         | 0          | 0         | 0          | 0.0          |
| Masters             | 0          | 0         | 0          | 0.0          |
| Others              | 0          | 0         | 0          | 0.0          |
| <b>Grand Total</b>  | <b>875</b> | <b>34</b> | <b>909</b> | <b>100.0</b> |

Table 2.3 shows the number and proportion of facilitators by their level of qualification. Most facilitators have attained Secondary Education.

## 2.2 Child-Facilitator Ratio 2023

Child-Facilitator Ratio (CFR) measures the number of children in the ECCD per facilitator. Lower the CFR, higher would be the availability of facilitator's services to the children. Table 2.4 depicts the Children-Facilitator Ratio for ECCDs by type of ECCDs. It shows that on average there are 14 children per facilitator. NGO ECCDs have the lowest CFR at 7 children per facilitator.

Table 2.4: Children Facilitator Ratio in ECCDs by type

| Type of ECCD     | Children     | Facilitator | Ratio     |
|------------------|--------------|-------------|-----------|
| Government       | 9715         | 592         | 16        |
| Private          | 2492         | 243         | 10        |
| NGO              | 50           | 7           | 7         |
| Workplace        | 755          | 67          | 11        |
| <b>All Types</b> | <b>13012</b> | <b>909</b>  | <b>14</b> |

## Chapter 3: Primary Education

### 3.1 Extended Classrooms

The introduction of Extended Classrooms (ECRs) was initiated as an intervention aimed at enhancing educational accessibility, particularly in remote, rural, and widely dispersed villages where students must cover considerable distances to reach school. ECRs serve as extensions of the nearest school (referred to as the parent school) and are typically accommodated in various locations such as lhakhangs (temples), community learning centers, Non-Formal Education (NFE) facilities, outreach clinics, village residences, and temporary classroom setups. These ECRs operate in a multi-grade format, where the enrollment of students in each grade is limited, and the parent school provides support to the ECRs by supplying teachers, educational materials, and overseeing overall administration.

Table 3.1: Enrollment in ECRs

| Gender       | Number of students | Proportion |
|--------------|--------------------|------------|
| Female       | 516                | 50.64      |
| Male         | 503                | 49.36      |
| <b>Total</b> | <b>1019</b>        | <b>100</b> |

As of 2023, there are a total of 1,019 students enrolled in 45 ECRs across the country. Out of them, 516 are female and 503 are male. The students in ECRs constitute approximately 0.7% of the total school enrollment in the country.

#### 3.1.1 Teachers in ECRs

Table 3.2 shows the total number of teachers teaching in ECRs across the country as of 2023. There is a total of 108 teachers teaching in ECRs of which approximately 70% are male and 30% are female.

Table 3.2: Teachers in ECRs by Gender

| Gender       | Number of Teachers | Proportion |
|--------------|--------------------|------------|
| Female       | 32                 | 29.63      |
| Male         | 76                 | 70.37      |
| <b>Total</b> | <b>108</b>         | <b>100</b> |

## 3.2 Primary Education

Primary education forms the cornerstone of a nation's educational system, serving as the crucial initial stage in a child's academic journey. This foundational level of education typically caters to children aged between 5 to 11 years, encompassing the early years of formal learning. Primary education plays a pivotal role in shaping young minds, imparting essential knowledge and skills. It also helps instill spirit for learning that sets the stage for a lifetime of educational growth and personal development.

It is generally agreed that the investment in primary education has positive impacts in reducing poverty and inequality in the long run. In light of this understanding, the Royal Government of Bhutan has taken steps to set up primary schools in proximity to communities, with the aim of reducing the distance children have to travel to attend school.

### Pre-Primary Education (PP)

Pre-primary is the first grade in primary education and since 2020 the revised official age for enrollment in grade PP is 5 years and above in Bhutan. As of 2023, there are 11,182 students enrolled in Pre-primary education as shown in Table 3.3.

Table 3.3: PP enrollment

| Gender       | PP Enrollment | Proportion |
|--------------|---------------|------------|
| Female       | 5405          | 48.34      |
| Male         | 5777          | 51.66      |
| <b>Total</b> | <b>11182</b>  | <b>100</b> |

In 2023, the Gross Intake Ratio (GIR) is reported at 90.2%, as indicated in Table 3.4. This marks a notable decline from the 107.1% observed in 2022. Furthermore, the table illustrates a steady rise in the number of students repeating grade PP throughout the country, with 2023 seeing one of the highest instances of grade repetition among young learners. It is important to note that starting in 2021, the GIR calculation incorporated the population of 5-year-olds. A higher GIR is indicative of improved enrollment at the first education level.

Table 3.4: Gross Intake Ratio (2018-2023)

| Year        | Enrollment   | Repeaters  | New Entrants | Population   | GIR (%)     |
|-------------|--------------|------------|--------------|--------------|-------------|
| 2018        | 13681        | 357        | 13324        | 12975        | 102.7       |
| 2019        | 11852        | 294        | 11558        | 12004        | 96.3        |
| 2020        | 16591        | 203        | 16388        | 11798        | 138.9       |
| 2021        | 12786        | 334        | 11176        | 11094        | 100.7       |
| 2022        | 11247        | 432        | 10815        | 10497        | 107.1       |
| <b>2023</b> | <b>11182</b> | <b>530</b> | <b>10717</b> | <b>11879</b> | <b>90.2</b> |

Table 3.5: PP enrollment (2018-2023)

| Year        | Female | Male | Total | Growth |        |
|-------------|--------|------|-------|--------|--------|
|             |        |      |       | #      | %      |
| <b>2018</b> | 6677   | 7004 | 13681 | 432    | 3.26   |
| <b>2019</b> | 5830   | 6022 | 11852 | -1829  | -13.37 |
| <b>2020</b> | 8207   | 8384 | 16591 | 4739   | 39.98  |
| <b>2021</b> | 6264   | 6522 | 12786 | -3805  | -22.93 |
| <b>2022</b> | 5453   | 5794 | 11247 | -1539  | -12.04 |
| <b>2023</b> | 5405   | 5777 | 11182 | -65    | -0.58  |

Table 3.5 provides a summary of PP enrollment trends during the past six years. In the most recent two years, there has been a decrease in PP enrollment, which represents a stabilization in intake following a significant surge in enrollment in 2020. This surge occurred as a result of the government's decision to reduce the official school-entry age from 6 to 5 years old.

### 3.2.1 Primary Education (PP-VI)

Primary education in Bhutan spans a duration of seven years, commencing from the Pre-primary level and extending through to Grade VI.

Table 3.6: Primary Enrollment 2023

| Class              | Female        | Male          | Total         |
|--------------------|---------------|---------------|---------------|
| PP                 | 5,405         | 5,777         | 11,182        |
| I                  | 5,441         | 5,647         | 11,088        |
| II                 | 6,293         | 6,489         | 12,782        |
| III                | 7,746         | 7,478         | 15,224        |
| IV                 | 7,233         | 7,439         | 14,672        |
| V                  | 6,569         | 6,283         | 12,852        |
| VI                 | 5,732         | 5,334         | 11,066        |
| <b>Grand Total</b> | <b>44,419</b> | <b>44,447</b> | <b>88,866</b> |

Table 3.6 shows the total enrollment of male and female students in every grade in primary education. The total number of students enrolled in primary education nationwide stands at 88,866, accounting for approximately 58% of the total school enrollment.

Table 3.7: Primary Enrollment by age

| Class          | Right Age in Years | Right Age Enrollment |             |             |             |             |             | Overage Enrollment |             |             |             |             |             | Underage Enrollment |            |            |            |            |            |
|----------------|--------------------|----------------------|-------------|-------------|-------------|-------------|-------------|--------------------|-------------|-------------|-------------|-------------|-------------|---------------------|------------|------------|------------|------------|------------|
|                |                    | 2018                 | 2019        | 2020        | 2021        | 2022        | 2023        | 2018               | 2019        | 2020        | 2021        | 2022        | 2023        | 2018                | 2019       | 2020       | 2021       | 2022       | 2023       |
| PP             | 5                  | 63.4                 | 57.1        | 64.0        | 81.8        | 41.8        | 65.3        | 38.4               | 42.7        | 30.7        | 18.2        | 58.2        | 34.7        | 3.6                 | 0.2        | 5.4        | 0.0        | 0.0        | 0.0        |
| I              | 6                  | 57.9                 | 57.3        | 56.2        | 62.8        | 36.7        | 60.3        | 44.8               | 39.7        | 41.6        | 32.1        | 63.3        | 39.7        | 4.5                 | 3.0        | 2.3        | 5.1        | 0.0        | 0.1        |
| II             | 7                  | 57.3                 | 51.9        | 56.0        | 55.8        | 29.2        | 52.9        | 48.1               | 44.0        | 41.1        | 41.9        | 70.7        | 47.0        | 5.3                 | 4.1        | 2.9        | 2.3        | 0.1        | 0.1        |
| III            | 8                  | 52.1                 | 51.3        | 52.0        | 55.9        | 10.1        | 42.3        | 47.4               | 43.9        | 44.1        | 41.1        | 89.6        | 57.5        | 5.6                 | 4.8        | 4.0        | 3.0        | 0.3        | 0.2        |
| IV             | 9                  | 47.5                 | 46.0        | 47.8        | 51.5        | 12.3        | 22.0        | 55.2               | 48.9        | 47.7        | 44.2        | 87.4        | 77.4        | 7.6                 | 5.1        | 4.5        | 4.2        | 0.3        | 0.6        |
| V              | 10                 | 38.5                 | 41.8        | 45.3        | 48.0        | 13.7        | 24.5        | 54.2               | 51.2        | 49.6        | 47.3        | 85.6        | 74.6        | 8.1                 | 7.1        | 5.1        | 4.7        | 0.7        | 0.9        |
| VI             | 11                 | 36.7                 | 38.6        | 42.2        | 45.3        | 15.8        | 24.9        | 54.0               | 5.1         | 50.6        | 49.4        | 83.3        | 73.4        | 9.0                 | 8.3        | 7.2        | 5.3        | 0.9        | 1.7        |
| <b>Average</b> |                    | <b>50.5</b>          | <b>49.1</b> | <b>51.9</b> | <b>57.3</b> | <b>22.8</b> | <b>41.7</b> | <b>48.9</b>        | <b>39.4</b> | <b>43.6</b> | <b>39.2</b> | <b>76.9</b> | <b>57.7</b> | <b>6.2</b>          | <b>4.7</b> | <b>4.5</b> | <b>3.5</b> | <b>0.3</b> | <b>0.6</b> |

Table 3.7. Shows the age specific enrollment rates for primary classes highlighting how closely the official admission age is adhered to. The table shows that on average of 41.7% of primary enrollees in 2023 is of right age whereas 57.7% and 0.6% of students are overage and underage respectively. A large number is overage due to the shift of the right age across the grades.

Figure 3.1: Primary Net Enrollment Rate (2018-2023)

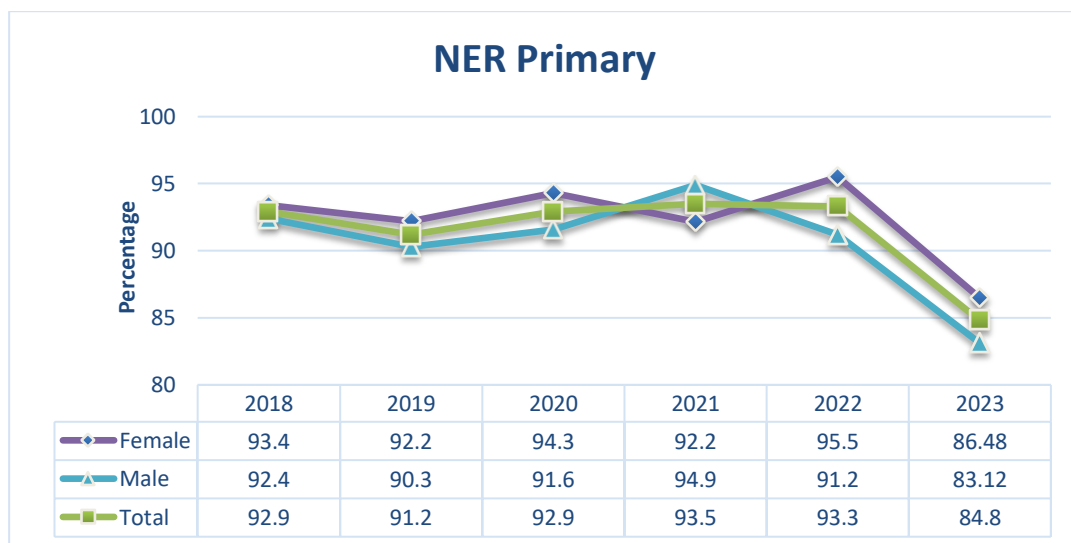

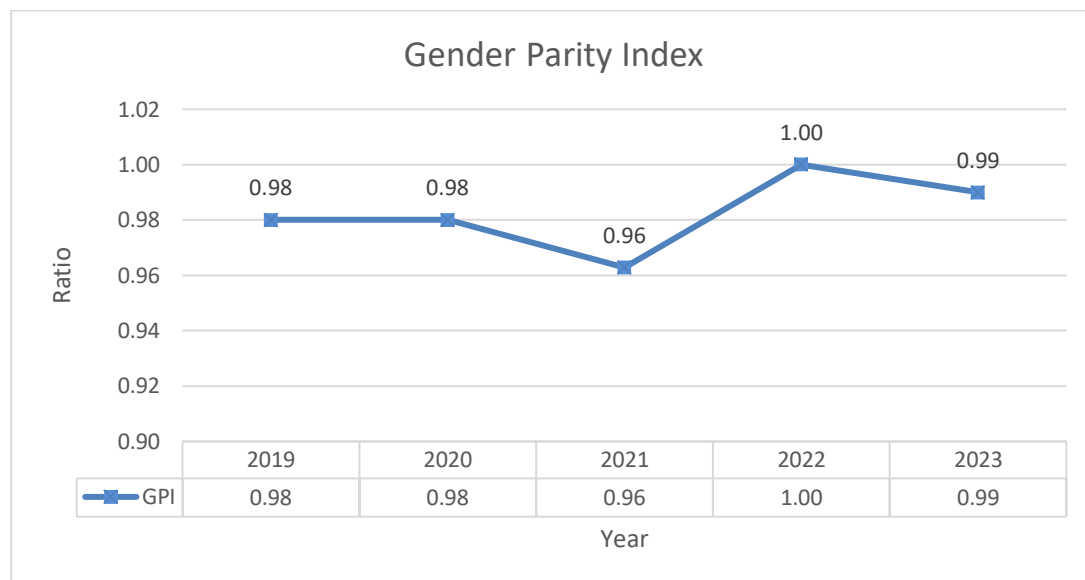

Figure 3.1 illustrates that the NER for both males and females has remained relatively consistent over the years. In 2023, the NER for primary education stands at 84.8%, signifying that 84.8% of the population aged 5 to 11 are enrolled in primary education, while the remaining 15.2% are either enrolled in monastic education or not enrolled at all. It's worth noting that in 2023, there is a noticeable decrease in enrollment rates for both boys and girls.

The adjusted net enrollment rate of primary stands at 94.57% which means that 94.57% of children aged 5 to 11 are enrolled in primary, secondary or any other level of education.

Figure 3.2: Gender Parity for Primary Education

As depicted in Figure 3.2, the gender balance in primary education has consistently stands around a value of 1, indicating a strong level of gender parity in primary enrollment.

### 3.2.2 Teachers in Primary Schools

It is important to have an adequate number of teachers teaching in different levels of school for quality and efficient education. Table 3.8 shows the total number of teachers teaching in primary schools nationwide stands at 3,203, out of which 96.1% are public school teachers and 3.9% are private school teachers. However, teachers teaching primary education level (PP-VI) in secondary schools are not incorporated in this section, and instead counted under the teachers in secondary schools.

Table 3.8: Number of Teachers in Primary Schools

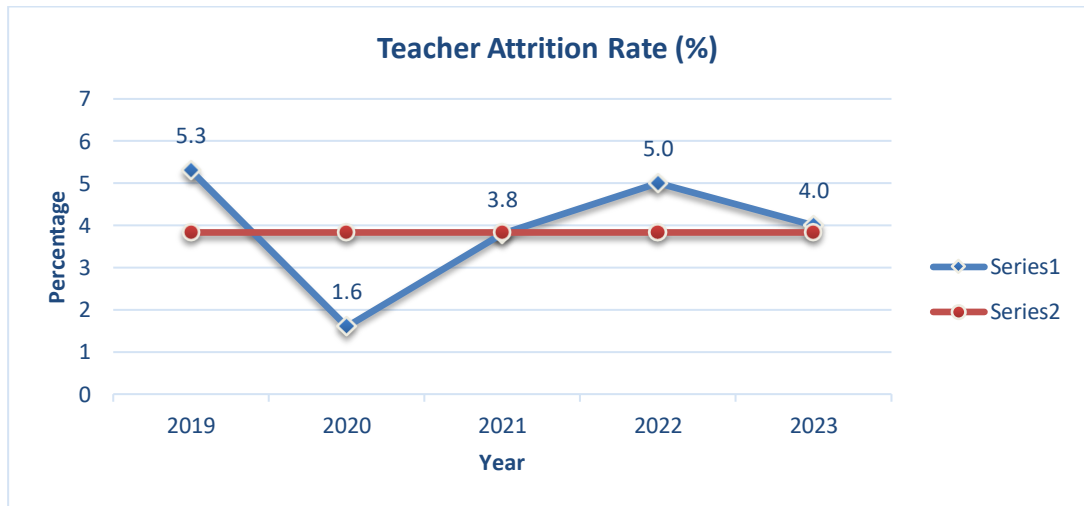

| School             | Female      | Male        | Total       |
|--------------------|-------------|-------------|-------------|
| Public Schools     | 1387        | 1694        | 3081        |
| Private Schools    | 85          | 37          | 122         |
| <b>Grand Total</b> | <b>1472</b> | <b>1731</b> | <b>3203</b> |

Table 3.9: Qualification of Teachers in Primary Schools

| Qualification               | Public School |             |             |
|-----------------------------|---------------|-------------|-------------|
|                             | Female        | Male        | Total       |
| Primary/Secondary Education | 69            | 80          | 149         |
| Diploma                     | 91            | 82          | 173         |
| Bachelor's                  | 819           | 1123        | 1942        |
| Masters                     | 57            | 216         | 273         |
| PG Diploma                  | 0             | 7           | 7           |
| Others                      | 2             | 4           | 6           |
| <b>Grand Total</b>          | <b>1038</b>   | <b>1512</b> | <b>2550</b> |

The highest level of qualification of teachers teaching in public and private primary schools is the Master’s Degree. Maximum number of public-school teachers have a Bachelor’s degree (1958 teachers) and the minimum number of teachers (3 teachers) possess a qualification of Post Graduate Diploma.

Figure 3.3: Public Primary School Teacher Attrition Rate

Teachers in public primary schools depart from their positions for various reasons, including voluntary resignations, contract expirations, terminations, and unfortunate events such as deaths. The departure of teachers from the public primary education sector has been on the rise over the years. However, there was a significant decrease in 2020, with an attrition rate for teachers in public primary schools dropping to 1.6%. Subsequently, the attrition rate increased to 3.8% in 2021, reached 5% in 2022, and slightly decreased to 4% this year. On average, the attrition rate for Primary Education has been 3.9% over a five years period, as depicted in Figure 3.3.

## Chapter 4: Secondary Education

The secondary education system in Bhutan consists of six years of schooling starting from Grade VII till Grade XII. The years of schooling are divided into two years of Lower Secondary (VII-VIII), two years of Middle Secondary (IX-X) and two years of Higher Secondary (XI-XII).

### 4.1 Lower Secondary

Lower secondary education comprises of two years of schooling right after primary education. Table 4.1 shows that the total enrollment in the lower secondary education across the country is 28,531 which constitutes around 19% of the overall enrollment of students in the country. Female enrollments in both grades are higher as compared to male.

Table 4.1: Enrollment in Lower Secondary Education

| Class              | Female       | Male         | Total        |
|--------------------|--------------|--------------|--------------|
| VII                | 6868         | 6448         | 13316        |
| VIII               | 8359         | 6856         | 15215        |
| <b>Grand Total</b> | <b>15227</b> | <b>13304</b> | <b>28531</b> |

### 4.2 Middle Secondary Education

Middle secondary education consists of a two-year schooling period that follows the completion of lower secondary education. According to Table 4.2, the combined enrollment for middle secondary education throughout the country stands at 19,490 students, making up 12.6% of the total student enrollment in Bhutan. Notably, in both grades, there is a higher enrollment of females compared to males.

Table 4.2: Enrollment in Middle Secondary Education

| Class              | Female       | Male        | Total        |
|--------------------|--------------|-------------|--------------|
| IX                 | 4380         | 4279        | 8659         |
| X                  | 5877         | 4954        | 10831        |
| <b>Grand Total</b> | <b>10257</b> | <b>9233</b> | <b>19490</b> |

### 4.3 Higher Secondary Education

Higher secondary education comprises of two years of schooling after completing middle secondary education. Table 4.5 shows that the total enrollment in the higher secondary education across the country is 18,260 which constitutes around 12% of the overall enrollment of students in Bhutan. Female enrollments in both grades are higher than compared to male.

Table 4.3: Enrollment in Higher Secondary Education

| Class              | Female      | Male        | Total        |
|--------------------|-------------|-------------|--------------|
| XI                 | 4195        | 3719        | 7914         |
| XII                | 5523        | 4823        | 10346        |
| <b>Grand Total</b> | <b>9718</b> | <b>8542</b> | <b>18260</b> |

#### 4.4 Enrollment in Secondary Education by Age

Table 4.4 provides information on enrollment rates for various education levels based on specific age groups, emphasizing the degree to which enrollment aligns with particular age brackets. The table shows that on average 23.70% of secondary education enrollment in 2023 is of right age while 72.43% of enrollments are overage and 3.87% is underage. The large proportion of overage students are due to the shift in right age across the grades. However, it is anticipated that this imbalance will decrease in the future, as stricter age-related entry requirements for school education have been implemented.

Table 4.4: Enrollment in Secondary Education by Age

| Class          | Right Age in Years | Right Age (%) |              | Overage (%)  |              | Underage (%) |             |
|----------------|--------------------|---------------|--------------|--------------|--------------|--------------|-------------|
|                |                    | 2022          | 2023         | 2022         | 2023         | 2022         | 2023        |
| VII            | 12                 | 13.94         | 22.32        | 84.92        | 75.94        | 1.14         | 1.74        |
| VIII           | 13                 | 15.62         | 18.30        | 82.80        | 79.95        | 1.58         | 1.75        |
| IX             | 14                 | 15.50         | 24.15        | 82.68        | 72.48        | 1.82         | 3.37        |
| X              | 15                 | 18.12         | 20.94        | 79.32        | 75.26        | 2.56         | 3.80        |
| XI             | 16                 | 24.79         | 28.92        | 70.87        | 65.33        | 4.33         | 5.75        |

| <b>Average</b> |                    | <b>17.94</b>  | <b>23.70</b> | <b>79.44</b> | <b>72.43</b> | <b>2.63</b>  | <b>3.87</b> |

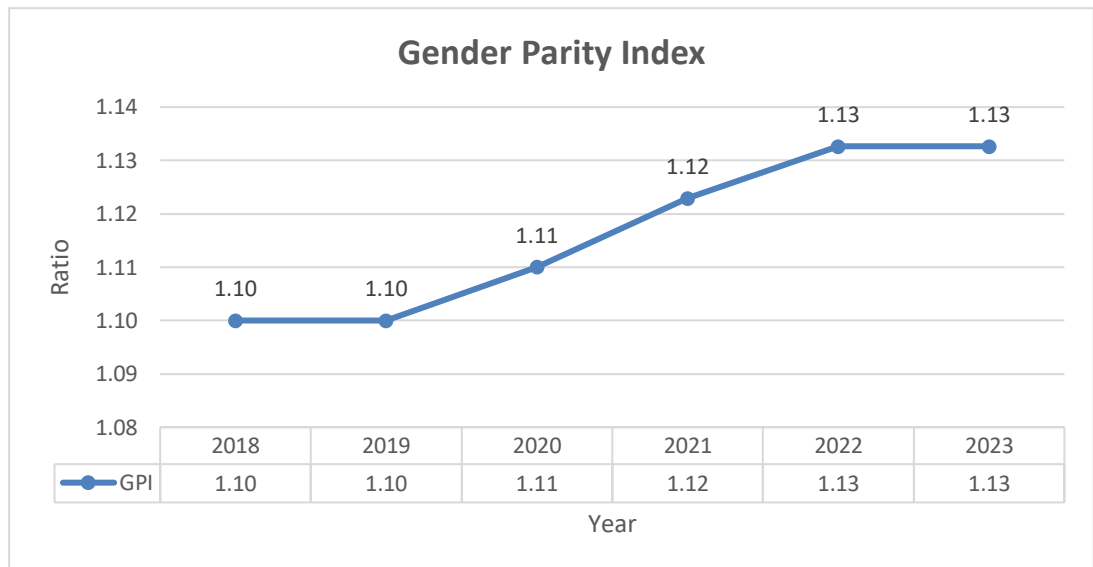

#### 4.5 Growth and Gender Parity in Secondary Education

Table 4.5 shows an increase in the enrollment in secondary schools during 2018 and 2019. However, there has been a decline in growth rates in secondary education, marked by one of the lowest growth rates on record, which stands at a negative 7.2% this year.

Table 4.5: Growth of Enrollment in Secondary Schools

| Year        | Secondary Enrollment |              |              | Growth       |             |
|-------------|----------------------|--------------|--------------|--------------|-------------|
|             | Female               | Male         | Total        | Count        | %           |
| 2018        | 39189                | 35621        | 74810        | 902          | 1.2         |
| 2019        | 40330                | 36562        | 76892        | 2082         | 2.8         |
| 2020        | 40335                | 36306        | 76641        | -251         | -0.3        |
| 2021        | 40043                | 35660        | 75703        | -938         | -1.3        |
| 2022        | 38075                | 33750        | 71825        | -3878        | -5.1        |
| <b>2023</b> | <b>35202</b>         | <b>31079</b> | <b>66281</b> | <b>-5544</b> | <b>-7.2</b> |

Figure 4.1: Gender Parity Index for Secondary Education

The graph displays a consistent Gender Parity Index (GPI) in secondary education over a six-year timeframe. Over the past six years, the GPI has consistently favored females. Similar to 2022, the GPI for secondary education remains at 1.13 in 2023, indicating a slightly higher presence of female students compared to male students. In any case, this suggests that gender parity at the secondary education level has been effectively achieved.

Table 4.6: Gross Enrollment Ratio (GER) in Secondary Education

| Year        | GER          |              |              |
|-------------|--------------|--------------|--------------|
|             | Female       | Male         | Total        |
| 2018        | 93.7         | 85           | 89.4         |
| 2019        | 98.2         | 88.5         | 93.4         |
| 2020        | 97.6         | 88.6         | 93.1         |
| 2021        | 98.3         | 86.7         | 92.5         |
| 2022        | 97.0         | 84.2         | 90.6         |
| <b>2023</b> | <b>111.9</b> | <b>108.4</b> | <b>110.1</b> |

As of 2023, the GER for secondary enrollment stands at 110.1% as shown in Table 4.6. The GER indicates an increase in enrollment from 2022, irrespective of age at that level.

## 4.6 Teachers in Secondary Schools

As indicated in Chapter 1, the classification of school levels depends on the final class that is taught. Schools that have Class VIII as their final classes are called Lower Secondary, while schools that have Class X or XII as their terminal classes are referred to as Middle Secondary and Higher Secondary Schools respectively. The secondary schools have entry classes at PP, VII, IX or XI.

The teacher data takes into account the count of educators at secondary schools based on the school's level, such as LSS, MSS, and HSS, regardless of the specific grade they teach.

Table 4.7: Number of teachers in Secondary Schools

| School             | Female      | Male        | Total       |
|--------------------|-------------|-------------|-------------|
| Public Schools     | 2761        | 3643        | 6404        |
| Private Schools    | 202         | 241         | 443         |
| <b>Grand Total</b> | <b>2963</b> | <b>3884</b> | <b>6847</b> |

As of 2023, there are 6,847 teachers teaching in secondary schools across the country in both public and private schools. This also includes teachers teaching primary grades in secondary schools. Overall, there are more male teachers as compared to female teachers teaching in secondary schools.

Table 4.8: Qualification of teachers in Secondary Schools

| Qualification                   | Public School |             |             |
|---------------------------------|---------------|-------------|-------------|
|                                 | Female        | Male        | Total       |
| Primary/Secondary Education     | 406           | 295         | 701         |
| Diploma                         | 100           | 101         | 201         |
| Bachelor's                      | 1737          | 2074        | 3811        |
| Masters                         | 353           | 887         | 1240        |
| PG Diploma                      | 20            | 26          | 46          |
| Long/Short-term formal training | 6             | 4           | 10          |
| Others                          | 10            | 8           | 18          |
| <b>Grand Total</b>              | <b>2632</b>   | <b>3395</b> | <b>6027</b> |

Based on available data from EMIS v3.

Table 4.8 shows the qualifications of teachers teaching in Secondary schools. The maximum number of teachers in both public secondary schools possess a Bachelor’s Degree.

Figure 4.2: Public Secondary Teacher Attrition Rate

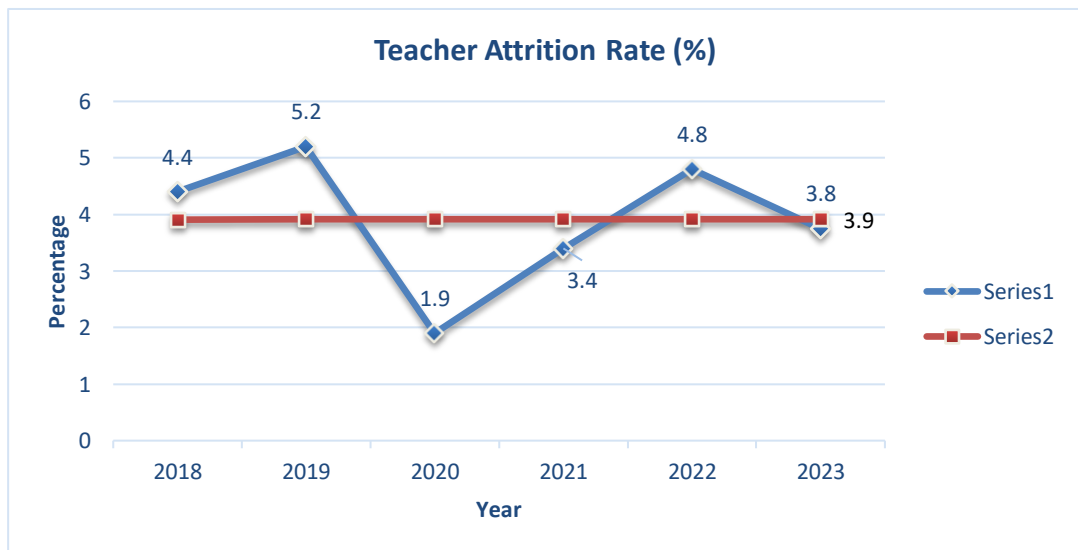

Figure 4.2 displays the attrition rate of teachers in public secondary schools over a six-year timeframe. In 2023, the attrition rate for public secondary school teachers is reported at 3.8%, which represents a slight decrease compared to 2022. Notably, 2020 recorded one of the lowest teacher attrition rates to date, while 2019 had one of the highest rates. On average, the attrition rate for public secondary school teachers has been 3.9% over the six-year period.

## Chapter 5: Technical and Vocational Education

### 5.1 Trainees in Technical and Vocational Education

Technical and Vocational Education and Training (TVET) began in 1964 as Don Bosco Technical School in Kharbandi (presently known as Rinchending), Phuentsholing. It was renamed to Kharbandi Technical School and later as Royal Technical Institute. In 2001, it was upgraded to the College of Science and Technology.

The mandate of providing technical and vocational education was transferred to the National Technical Training Authority (NTTA) from the Ministry of Education (Now MoESD) in the late 1990s. Later, in 2002, it was placed under the Ministry of Labour and Human Resources (now MoICE) where it remained until 2022.

In 2003, three Technical Training Institutes (TTIs), one each at Khuruthang in Punakha, Rangjung in Trashigang and Samthang in Wangdue were established. As of 2023, there are now a total of six TTIs along with two Zorig Chusums which cover 13 traditional arts and crafts. These institutions are managed by the Department of Workforce Planning and Skills Development (DWPSD) under the Ministry.

Students generally enter the TVET programme after completing the tenth grade. In 2011, the Ministry introduced a vocational skill curriculum as an optional subject for Class IX in five schools (Khuruthang MSS, Bajo HSS, Chumey MSS, Rangjung CS and Bayling CS) located near Technical Training Institutes (TTIs). This initiative aimed to encourage the integration of vocational programs into the school education system. Within the vocational skills curriculum, students receive instruction in various areas such as general electrical and house wiring, basic automobile engineering, carpentry, plumbing, tailoring, hardware training and Zorig Chusum.

Table 5.1: Trainees in Technical Training Institutes

| Dzongkhag          | Institute                                | Male        | Female      | Total       |
|--------------------|--|-------------|-------------|-------------|
| Bumthang           | Chumey TTI                               | 168         | 87          | 255         |
| Punakha            | Khuruthang TTI                           | 275         | 115         | 390         |
| Sarpang            | Jigme Wangchuck Power Training Institute | 339         | 171         | 510         |
| Thimphu            | Thimphu TTI                              | 223         | 21          | 244         |
| Trashigang         | Rangjung TTI                             | 142         | 78          | 220         |
| Wangdue Phodrang   | Samthang TTI                             | 390         | 118         | 508         |
| Thimphu            | Institute of Zorig Chusum                | 278         | 314         | 592         |
| Trashiyangtse      | Institute of Zorig Chusum                | 125         | 76          | 201         |
| Zhemgang           | Rural Development Training Centre        | 90          | 55          | 145         |
| <b>Grand Total</b> | <b>9</b>                                 | <b>2030</b> | <b>1035</b> | <b>3065</b> |

As of 2023, there are 9 institutes offering technical and vocational education under DWPSD. Starting this year, the Rural Development Training Centre (RDTC) is integrated under DWPSD making a total number of TVET institutes to 9. There are 2030 male trainees compared to 1035 female trainees in the country availing technical and vocational education in various fields under DWPSD. The total number of Trainees in TTIs have increased in comparison to last year, which saw a total of 3065 trainees.

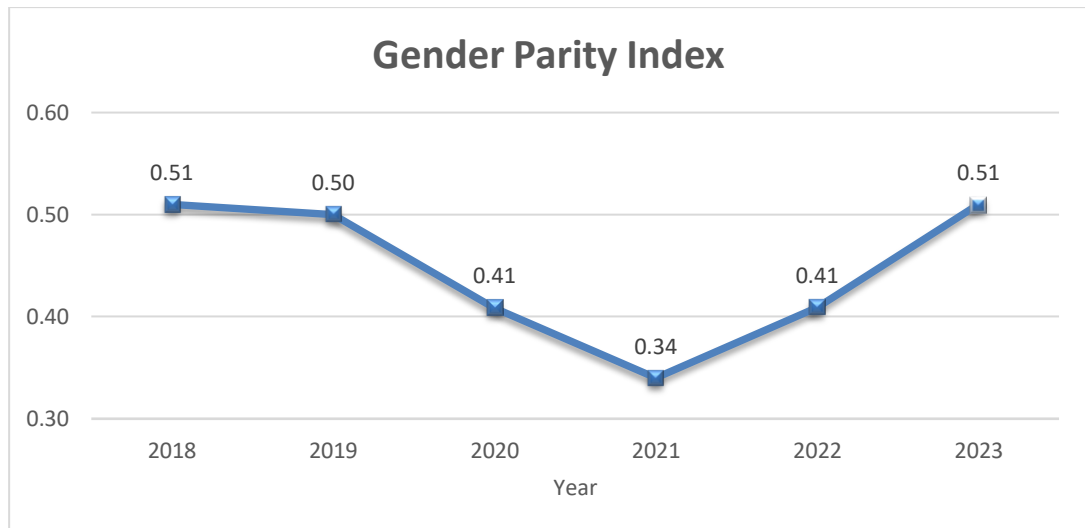

Figure 5.1: Growth of enrollment in technical and vocational education

| Year        | Trainees    |             |             | Growth      |              |
|-------------|-------------|-------------|-------------|-------------|--------------|
|             | Female      | Male        | Both        | #           | %            |

| 2019        | 598         | 1195        | 1793        | 282         | 18.7         |
| 2020        | 161         | 394         | 555         | -1238       | -69.0        |
| 2021        | 283         | 842         | 1125        | 570         | 102.7        |
| 2022        | 398         | 973         | 1371        | 246         | 21.9         |
| <b>2023</b> | <b>1035</b> | <b>2030</b> | <b>3065</b> | <b>1694</b> | <b>123.6</b> |

Source: DWPSD

The enrollment of students in technical and vocational education programs has experienced variations over a six-year period. In 2020, there was a notably low number of trainees, but in 2021, there was a remarkable increase of over 100%, and this growth continued in 2022 with an additional nearly 22% rise. This year, enrollment has surged by nearly 124% compared to the previous year. In summary, the growth trend in the number of trainees has been erratic with an inconsistent pattern. However, the number of trainees are expected to grow due to the rising importance of skillbuilding.

Figure 5.2: Gender Parity Index in Technical and Vocational Education

The gender parity index for technical and vocational education has been slightly increasing till 2017 followed by a decrease thereafter. As of 2023, the GPI for technical and vocational education stands at 0.51 which means that male trainees dominate the enrollment. Figure 5.2 shows that the number of male trainees has remained higher as compared to female trainees in the past seven years with comparatively fewer female trainees in every year.

## 5.2 Trainers in Technical and Vocational Education

Table 5.2 shows that there is a total of 148 trainers teaching in TTIs & IZCs across the country. There is a greater number of male (68%) trainers as compared to female trainers teaching in TTIs & IZCs.

Table 5.2: Trainers and Instructors in Vocational Education

| Dzongkhag          | Institute                                | Male       | Female    | Total      |

## Chapter 6: Tertiary Education

### 6.1 Students in Tertiary Education

The Tertiary Education system in the country began with the upgrading of Sherubtse Junior College to the first undergraduate degree college in 1983 followed by other tertiary education institutions (TEIs).

As of 2023, there are 10,901 students pursuing various courses in all tertiary institutions within Bhutan. Female enrollment is slightly lower than males, making up 48.8% of the total enrollment at the tertiary level in Bhutan. It is a slight increase from 45.7% in 2022.

Table 6.1: Number of Students in Tertiary Education

| Sl. No.   | Institute                                      | Owner-ship | RGOB FUNDED |        |       | SELF-FUNDED |        |       | Other Funding |        |       | ALL TOTAL |        |       |

Every year, in addition to the undergraduate scholarships offered by the Royal Government of Bhutan (RGoB), a number of students also pursue undergraduate studies through self-financing in various courses abroad. As of 2023, there are 1,641 students pursuing various undergraduate studies in over 14 countries as presented in Table 6.2. The largest number of Bhutanese students attending tertiary education are in Australia and India for scholarship students. India and Australia have the largest number of privately funded students.

Figure 6.1: Growth of Students in Tertiary Education in Bhutan

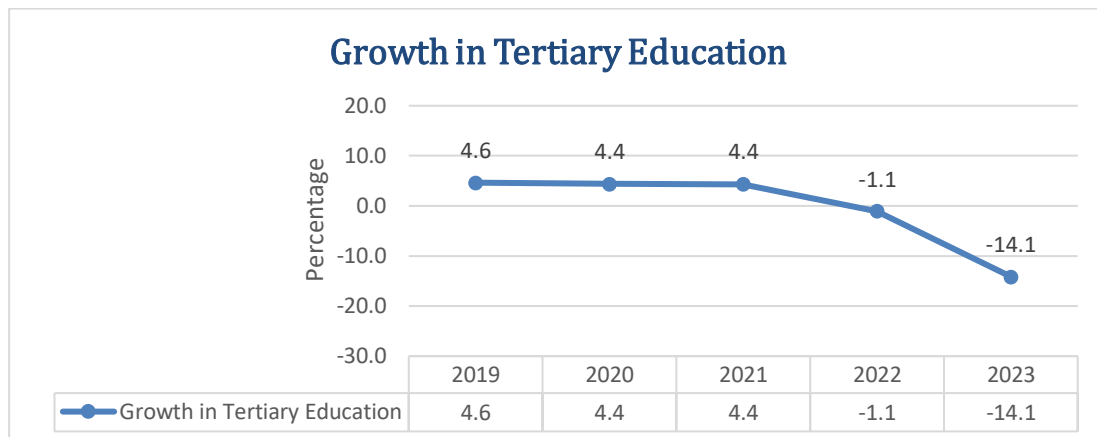

Figure 6.1 shows the growth of enrollment of students in tertiary education in Bhutan over a period of six years. Tertiary enrollment peaked at 2019 and saw gradual decrease till 2023. For 2023, the growth in enrollment in tertiary education is negative (-16.4), i.e., the total number of students decreased by 1793 in comparison to last year. The GER for tertiary education for within Bhutan in 2023 is 15.96% shown in Table 6.3. The GER for students studying both within and outside Bhutan is estimated to be about 18.36%.

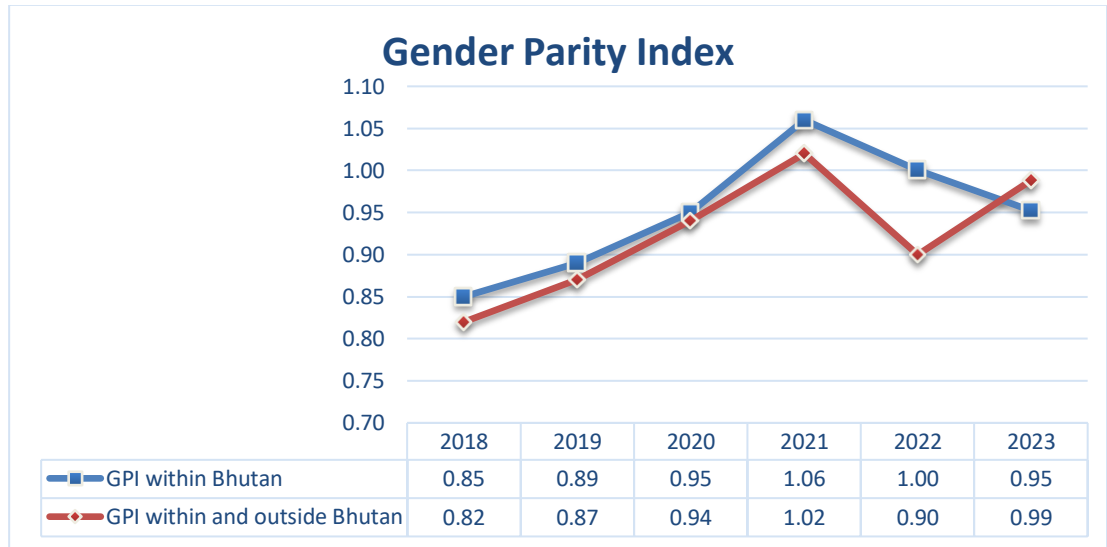

Table 6.3: Gross Enrollment in Tertiary Education

| Year        | GER within Bhutan |      |       | GER including Students Abroad |      |       |
|-------------|-------------------|------|-------|-------------------------------|------|-------|
|             | Female            | Male | Total | Female                        | Male | Total |
| 2018        | 27.1              | 31.9 | 29.5  | 40.2                          | 49.1 | 44.7  |
| 2019        | 16.6              | 17.0 | 16.8  | 24.1                          | 25.6 | 24.9  |
| 2020        | 17.9              | 17.8 | 17.9  | 23.5                          | 23.6 | 23.6  |
| 2021        | 19.4              | 18.4 | 18.9  | 25.3                          | 24.9 | 25.1  |
| 2022        | 18.6              | 19.0 | 18.8  | 25.3                          | 25.2 | 25.3  |
| <b>2023</b> | 15.6              | 16.3 | 18.8  | 18.3                          | 18.4 | 18.4  |

As per the standard methodology of the UNESCO Institute for Statistics (UIS), the GER at tertiary level is derived by dividing the total enrollment in tertiary education by total population in the age group of 19-23 years old. However, since the tertiary education system in Bhutan offers mostly undergraduate and diploma programmes with course duration ranging from two to four years, only age group of 19-21 was used as denominator while estimating the GER till 2018.

The GER based on the UIS definition i.e. proportion of 19-23 years old participating in the higher education system (both within and outside Bhutan), is estimated to be about 18.36 % for 2023. Therefore, the low GER observed in 2019 onwards is due to the change in methodology. Enrollment in tertiary education has gradually decreased for the past few years in Bhutan.

Figure 6.2: Gender Parity Index

This year, the tertiary gender parity index had been in favor of males for both within Bhutan and abroad as shown in Figure 6.2. However, the difference is negligible and the gender parity can be said to be excellent health. There has been slight decrease in female enrollment in tertiary education albeit a small one. Gender Parity trend has been similar for Bhutanese students studying both within and outside the country.

## 6.2 Lecturers in Tertiary Education

There are a total of 788 lecturers in tertiary education across the country out of which 64.5% are male. The details of the staffing are presented in Table 6.4.

Table 6.4: Number of teachers in tertiary education

| Sl.No.  | Institute   | Ownership            | Teaching Staff |            |            |

## Chapter 7: Monastic Education

Monastic education is generally provided by two types of monastic institutions - the government supported monastic institutes under the Zhung Dratshang (Central Monastic Body), private monastic institutes and nunneries. The courses offered include language, arts, literature, philosophy, and mediation among others and have their own structured degree programmes.

### 7.1 Learners in Monastic Education

| 19                 | Wangdue Phrodang | 739         |
| 20                 | Zhemgang         | 340         |
| <b>Grand Total</b> |                  | <b>7944</b> |

Table 7.1 depicts the number of novices enrolled in monastic institutes under the administration of Dratshang Lhentshog. As of 2023, a total of 7,944 novices are enrolled in monastic institutions under the supervision of 202 Rabdeys, Shedras and Lobdras. The data presented does not include the learners in various independent and private monastic institutes.

## Chapter 8: Non-Formal and Continuing Education

The Non-Formal Education (NFE) initiative has become widely recognized as a successful program aimed at imparting fundamental literacy, numeracy, and practical abilities to the adult populace. As of July 2023, 4,764 students were actively enrolled in Basic Literacy Course (BLC) and Post Literacy Course (PLC) at 435 locations across the nation.

## 8.2 Community Learning Centers

The community learning centers provide a wide range of lifelong learning opportunities, particularly for individuals who have completed Post Literacy Courses out-of-school youth, and literate adults including nuns, monks, and lay monks. It provides various learning opportunities for community development and enhancing the quality of life, with a particular emphasis on literacy and continuing education.

The activities organized by CLCs cover a wide range of community-based development programs including health, agriculture; life skills-based education, and entrepreneurial skills consistent with local needs. As a result, community learning centers (CLCs) are increasingly seen as vital initiatives for socioeconomic development. As of 2023, a total of 28 CLCs with 302 learners were being reported across the Nation.

### 8.2.1 Managers in CLCs

Table 8.4 shows that there are 29 managers working in CLCs across the country. Out of the 29 managers, 25 are female and only 4 are male. Furthermore, CLCs witnessed more female managers compared to male managers.

## 8.3 Continuing Education

The Ministry started the Continuing Education (CE) program at Kelki HSS in Thimphu in 2006 to promote lifelong learning and upgrade the qualification of those enthusiastic learners. The program offers 2-year courses to complete classes X and XII. Currently, a total of 97 learners are enrolled in this program through CE centers. CE classes are conducted in the evenings and on the weekends. Currently, only Pelkhil School in Thimphu offers CE classes.

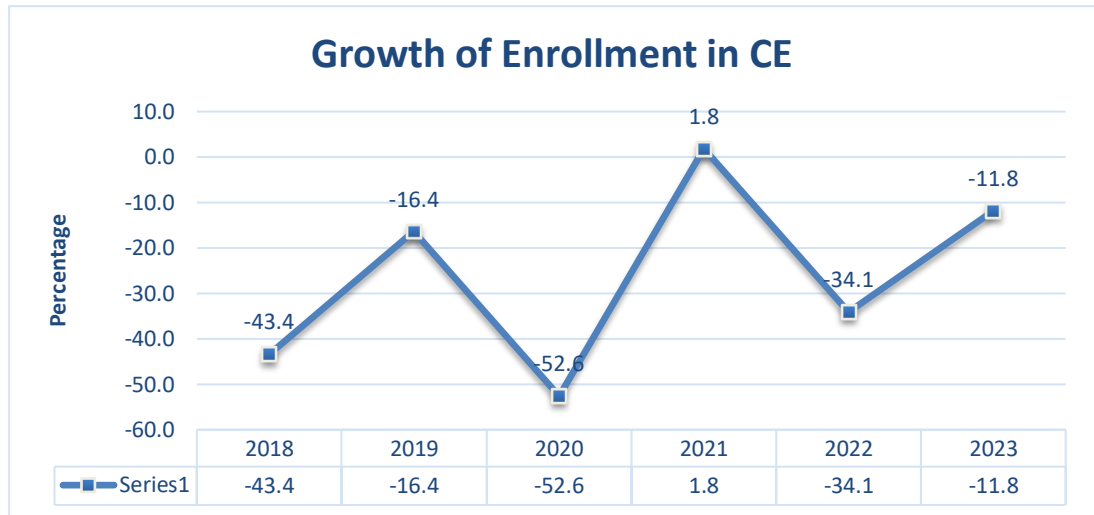

### 8.3.1 Learners in CE

A total of 97 learners pursuing higher secondary education through the continuing education programs in the country are presented in Table 8.5. There are 16 learners in grade XI and 81 learners in grade XII. More learners are pursuing Arts stream for both male and female.

Table 8.5: Number of Learners in CE

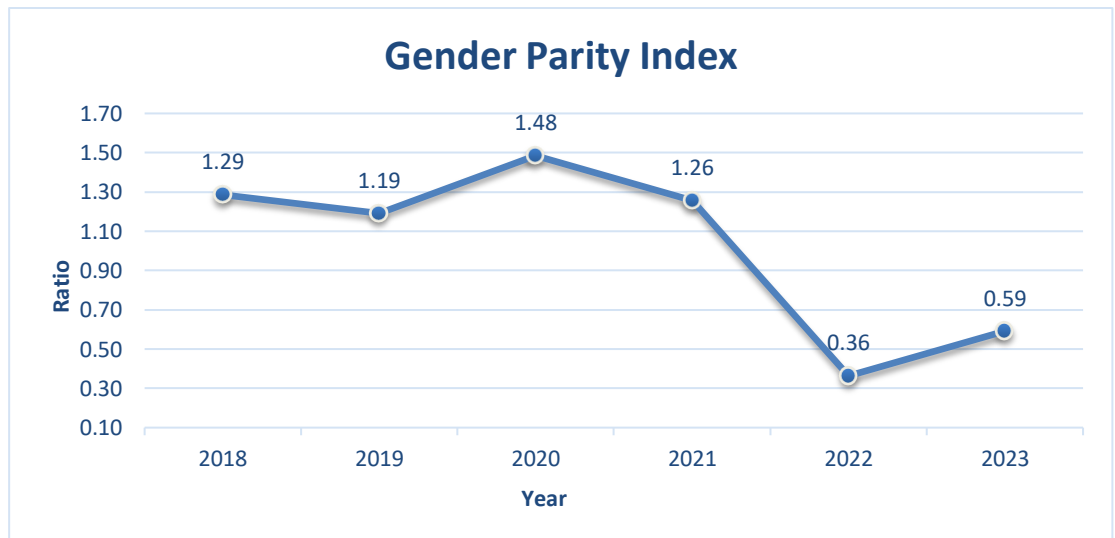

| Sl.No. | Dzongkhag/<br>Center        | Stream           | Class | Male | Female | Total |
|--------|-----------------------------|------------------|-------|------|--------|-------|
| 1      | Pelkhil,<br>Thimphu Thromde | Class XI Arts    | XI    | 6    | 10     | 16    |
|        |                             | Class XII Arts A | XII   | 7    | 12     | 19    |
|        |                             | Class XII Arts B | XII   | 11   | 14     | 25    |
|        |                             | Class XII Com    | XII   | 12   | 25     | 37    |
|        |                             |                  |       | 36   | 61     | 97    |

Figure 8.1: Growth of Learners in CE

The enrollment trend in CE is observed to be inconsistent over the years. As of 2023, the number of learners decreased by -11.8% as shown in Figure 8.1.

Figure 8.2: Gender Parity Index in CE

The GPI for six years has been in favor of female. As shown in Figure 8.2, for 2023, the GPI stands at 0.59 which indicates a greater number of female learners in CE as compared to male.

## Chapter 9: Quality Indicators

### 9.1 Student-Teacher Ratio

The Student-Teacher Ratio (STR) measures the number of students per teacher. This indicator is often used as a proxy indicator for measuring quality of education, due to the difficulty in constructing direct instruments to measure quality of education. In this context, the lower STR indicates higher the availability of teacher services to the students and vice versa.

Table 9.1: Student Teacher Ratio by School Level in both public and private schools

| School Level       | Public        |             |            | Private     |            |             |
|--------------------|---------------|-------------|------------|-------------|------------|-------------|
|                    | Students      | Teachers    | STR Public | Students    | Teachers   | STR Private |
| Extended Classroom | 1019          | 108         | 9          | 0           | 0          | 0           |
| Primary            | 44938         | 3081        | 15         | 1395        | 122        | 11          |
| Lower Secondary    | 16695         | 1032        | 16         | 208         | 20         | 10          |
| Middle Secondary   | 35434         | 2196        | 16         | 697         | 55         | 13          |
| Higher Secondary   | 49692         | 3140        | 16         | 4950        | 368        | 13          |
| Special Institute  | 131           | 36          | 4          | 0           | 0          | 0           |
| <b>Total</b>       | <b>147909</b> | <b>9593</b> | <b>15</b>  | <b>7250</b> | <b>565</b> | <b>13</b>   |

The average STR for public schools is 15 students per teacher while the STR for private schools is 13 students per teacher. The STR for private primary schools is 11 students per teacher as compared to 15 students per teacher in public primary schools. In public schools, the Higher Secondary Schools, Lower Secondary Schools and Middle Secondary Schools have the highest STR (16) and Special Institute have the lowest STR (4). In private schools, the Higher Secondary Schools and Middle Secondary School have the highest STR (13) and Lower Secondary have the lowest STR (10).

### 9.2 Class Size

In addition to student-teacher ratio, another indicator that measures the quality of education is the number of students in each class. This assumes that every section in a school is a different class. Table 9.2 shows significant improvements in class size as compared to past years. The average class size in Bhutan remains unchanged at 15 in 2023, which is same as the previous year. In contrast to last year's findings, the Primary schools now have smaller class sizes as compared to other school levels (excluding ECR and SI).

Table 9.2 also shows the average by single class where Grade PP has the smallest average class size at 16 and Grade IV, VII and VIII has the largest average class sizes at 19 students per class. Despite the average class size as shown, some classes still have very large class sizes depending on the schools and location.

Table 9.2: Class Size by Level and Class

| Levels                 | PP        | I         | II        | III       | IV        | V         | VI        | VII       | VIII      | IX        | X         | XI       | XII      | Average (Level) |
|------------------------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|----------|----------|-----------------|
| Extended Classroom     | 5         | 5         | 6         | 7         | 7         | 0         | 0         | 0         | 0         | 0         | 0         | 0        | 0        | 2               |
| Primary                | 15        | 15        | 17        | 19        | 20        | 18        | 17        | 19        | 20        | 0         | 0         | 0        | 0        | 12              |
| Lower Secondary        | 22        | 23        | 25        | 27        | 28        | 26        | 26        | 28        | 29        | 0         | 0         | 0        | 0        | 18              |
| Middle Secondary       | 25        | 26        | 28        | 28        | 29        | 28        | 26        | 29        | 29        | 26        | 27        | 0        | 0        | 23              |
| Higher Secondary       | 21        | 22        | 23        | 26        | 26        | 25        | 24        | 30        | 30        | 27        | 28        | 29       | 28       | 26              |
| Special Institute      | 7         | 5         | 1         | 3         | 6         | 4         | 5         | 9         | 8         | 9         | 10        | 2        | 3        | 5               |
| <b>Average (Class)</b> | <b>16</b> | <b>16</b> | <b>16</b> | <b>18</b> | <b>19</b> | <b>17</b> | <b>16</b> | <b>19</b> | <b>19</b> | <b>10</b> | <b>11</b> | <b>5</b> | <b>5</b> | <b>15</b>       |

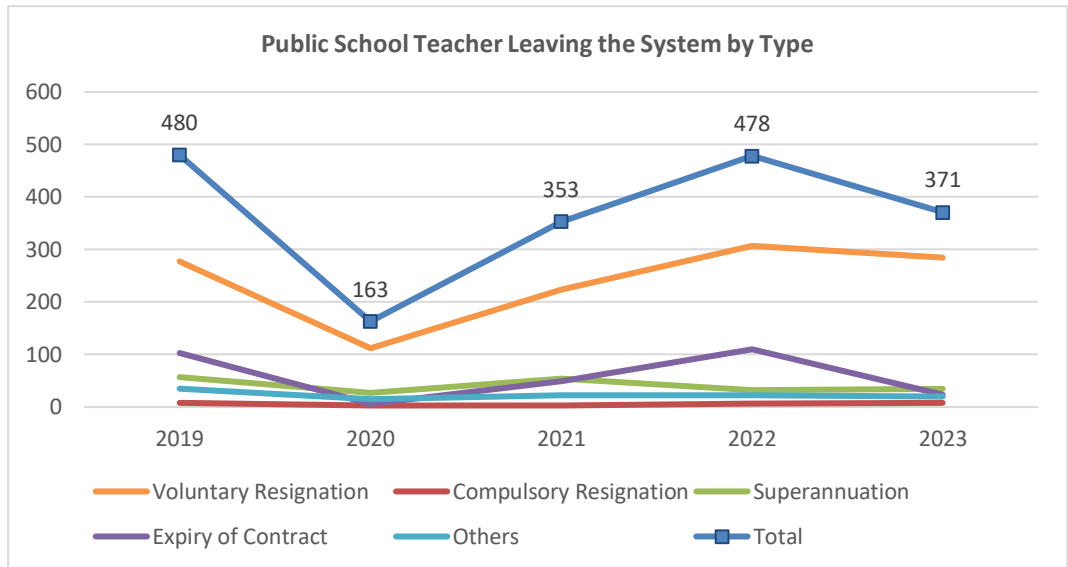

### 9.3 Teacher Attrition Rate

On an average, 3.8% of teachers left the education system from public schools in 2023. The reasons for leaving the system include voluntary resignation, superannuation, and expiry of contract, among others. In 2023, 371 teachers have left the system, as presented in Table 9.3.

Table 9.3: Public School Teacher Leaving the System by Type

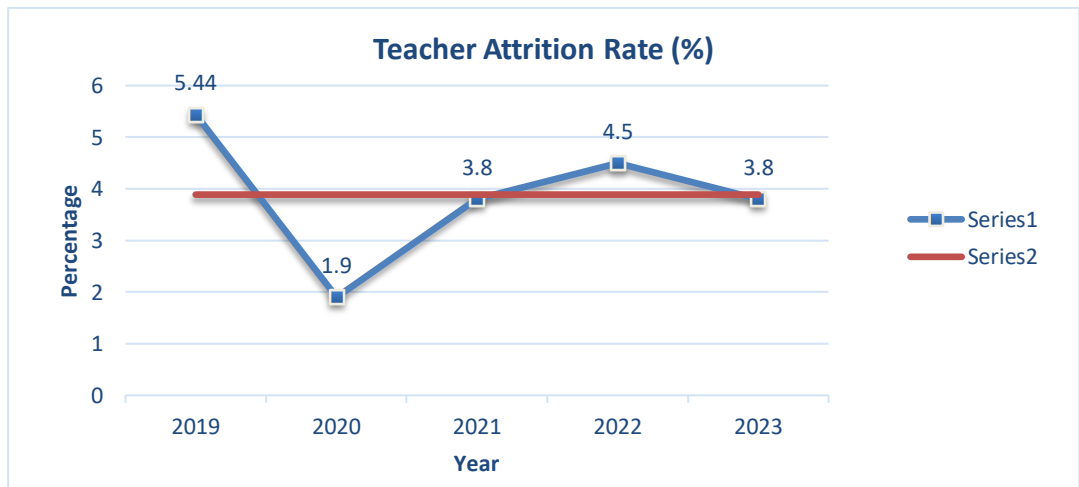

| Year        | Voluntary Resignation | Compulsory Resignation | Superannuation | Expiry of Contract | Others | Total |
|-------------|-----------------------|------------------------|----------------|--------------------|--------|-------|
| <b>2018</b> | 263                   | 7                      | 60             | 10                 | 15     | 355   |
| <b>2019</b> | 277                   | 8                      | 57             | 103                | 35     | 480   |
| <b>2020</b> | 112                   | 3                      | 27             | 6                  | 15     | 163   |
| <b>2021</b> | 224                   | 3                      | 54             | 49                 | 23     | 353   |
| <b>2022</b> | 307                   | 7                      | 32             | 110                | 22     | 478   |
| <b>2023</b> | 284                   | 8                      | 35             | 24                 | 20     | 371   |

Figure 9.1: Public School Teacher Leaving the System by Type

A steady rise in teacher resignations was witnessed in 2019. However, the resignation rate dropped in 2020. The teacher attrition rate again rose to 478 in 2022 and dropped to 371 in 2023. The majority of the teachers resigned voluntarily as represented by the red trendline in Figure 9.1.

Figure 9.2: Public Teacher Attrition Rate

The attrition rate has been increasing every year except 2020 where it stands at 1.9% as shown in Figure 9.2. However, it rose again in 2022 to 4.5 and slightly decreased this year to 3.8%.

Table 9.4: Public School Teachers who left by Type of Service

| Type of Service    | 2019       | 2020       | 2021       | 2022       | 2023       | Total       |
|--------------------|------------|------------|------------|------------|------------|-------------|
| Regular Teachers   | 285        | 135        | 264        | 272        | 347        | 1303        |
| Contract Teachers  | 179        | 28         | 89         | 206        | 24         | 526         |
| <b>Grand Total</b> | <b>464</b> | <b>163</b> | <b>353</b> | <b>478</b> | <b>371</b> | <b>1829</b> |

Table 9.4 shows that over the five years, 1829 teachers have left the system i.e 1303 regular teachers and 526 contract teachers.

### 9.4 Expatriate and National Teachers

Over the last six years, the number of expatriate teachers has been decreasing. While the number of national teachers has been increasing but slightly decreased by few hundreds this year as shown in Figure 9.2. As of 2023, the total number of expatriate teachers in both public and private schools stand at 77 and the number of Bhutanese teachers stands at 10,081.

Figure 9.3: Number of Expatriate and National Teachers

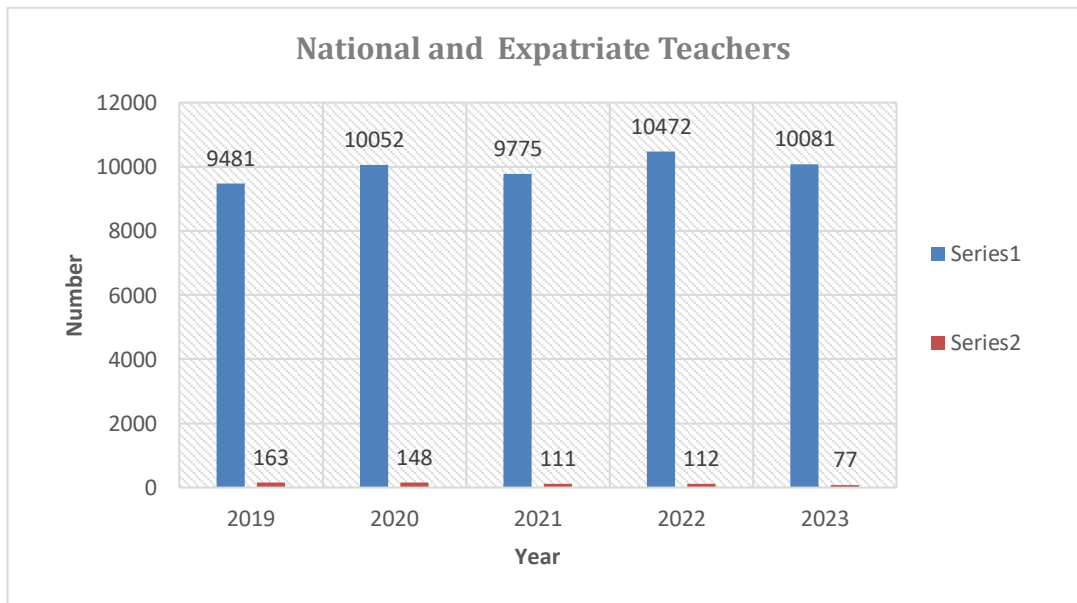

Figure 9.4: Proportion of Expatriate Teachers in different levels of public schools

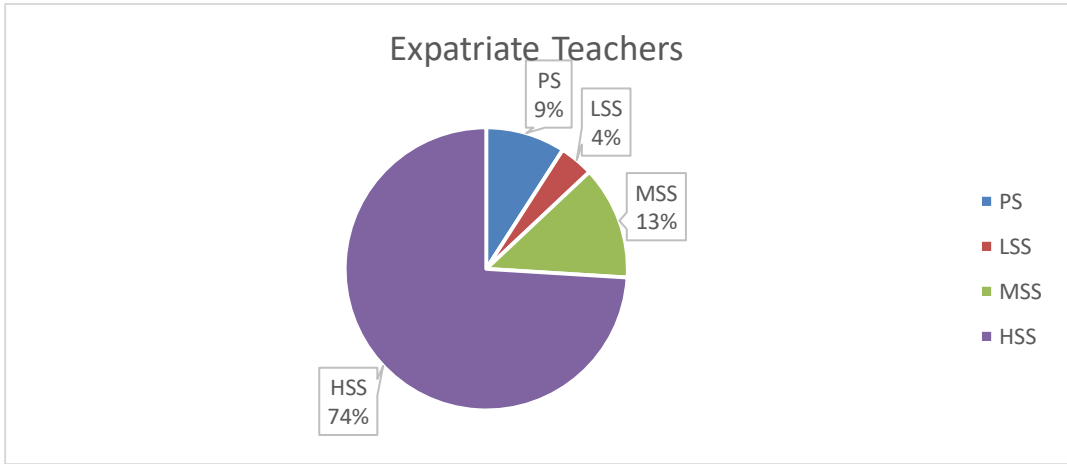

Figure 9.4 shows the proportional distribution of expatriate teachers in different levels of schools in the country. The highest proportion of expatriate teachers is in higher secondary schools (74.0%) and the lowest is in lower secondary schools (4.0%).

### 9.5 Teacher Education and Professional Development

Pursuant to the Ministry’s commitment to continually enhance teacher competency, the Ministry has organized national level professional development (PD) programmes for teachers since 2016. Teachers are required to undergo eighty hours of professional development programme in a year as per Teacher Human Resource Policy 2014. The national level programme was a part of the Ministry’s commitment to offer forty hours of PD while the rest forty hours are offered at the Dzongkhag, cluster and school levels.

Table 9.5: In-Service Workshops

| Year      | National Level  |                              |
|-----------|---|------------------------------|
|           | Courses   | Participant                  |
| 2022-2023 | 1 (National Mathematics Professional Development Programme)                                 | All the Mathematics teachers |
| 2021-2022 | 1 (Digital Teacher)   | All teachers and principals  |
| 2020-2021 | 1 (School Leaders Development Programme (SLDP) Cohort 1 - Cohort 8 (from 2021 to Jan 2022)) | All Principals               |
| 2019-2020 | 1 (Neuro-Science based Mindfulness and Emotional Intelligence and Helping Skills)           | All teachers and principals  |

Table 9.5 shows the number of in-service workshops and training organized at the national level from 2019-2020. In 2022-2023, all mathematics teachers participated in the National Mathematics Professional Development Programme.

Since 2000, teachers have been provided the opportunity to upgrade their qualifications to Bachelor’s and Masters of Education at Paro College of Education. Table 9.6 shows the number of teachers pursuing various programmes.

Table 9.6: In-country Teachers Enrollment in Long Term Training

| Programme                                | Mode       | Duration  | Institute   | 2018-2019 | 2019-2020 | 2021-2022 | 2022-2023 |

| <b>M.Ed. Primary Mathematics</b>         | Full time  | 2 years   | Samtse CoE  | -         | -         | 10        | 19        |
| <b>Total</b>                             |            |           |             | 181       | 223       | 135       | 322       |

In 2023, four new M.Ed. courses have been introduced as portrayed in Table 9.6.

### 9.5.1 Pre-Service Education

Pre-service teacher education is provided by two colleges of education (CoE) in Samtse and Paro. The former was established in the year 1968 and the latter in 1975. They offer pre-service programmes at Bachelor of Education (B.Ed) and Post Graduate Diploma in Education (PGCE) level. As of 2021, there were 2115 teacher trainees pursuing B.Ed and PGDE programmes in the two CoEs, which is a decrease in the overall enrollment compared to 2020 as shown in Table 9.7.

Table 9.7: Enrollment in Colleges of Education (2022)

| Year | COE, Samtse |      |       | COE, Paro |      |       | Total  |      |       | Ratio of Female to Male |

### 9.6 Counsellors in Schools

In 2009, the Royal Civil Service Commission granted approval for the recruitment of School Guidance Counsellors (commonly referred to as Fulltime Counsellors) as part of an organized initiative to establish a structured guidance and counselling program within all schools.

The School Guidance and Counselling Program, through the efforts of these counsellors, holds significant importance within schools. These counsellors serve as essential figures in providing support and guidance to students during their time in school. As of 2023, there are a total of 163 counsellors deployed across the country, as presented in Table 9.8.

## 9.8 Special Education

The Muenselling Institute in Khaling, Trashigang was established in 1973 as the first special school in the country catering to children with visual impairment. In 2003, a Special Educational Needs (SEN) programme was introduced in Changangkha Middle Secondary School to integrate children with disabilities into mainstream schooling. The long-term objective of the SEN Programme is to provide access to general education in regular schools for all children with disabilities, including those with physical, intellectual and other types of impairments. The Royal Government thus emphasizes on inclusive approach to strengthen educational access to quality education for children with disabilities and learning difficulties.

As of July 2023, there are a total of there are 39 schools with SEN programme and two specialized institutes catering to 1025 students with special educational needs. There is a total of 1025 SEN students enrolled in the country, with the remaining number of students in general schools.

Table 9.10 shows that as of 2023, there are 1025 students enrolled in 39 Schools.

## 9.9 Examination Results

The national level examinations at the end of primary education were instituted in 1972 with the aim of ensuring uniformity in the standard of education among the different schools across the country. It was also used as a standard for screening the candidates for entry into the next level of general education. With the raising of the basic education level to class X, primary education examination was devolved to schools in 1999 and national board examinations conducted at the end of class X and XII.

Until 2013, those students who failed in the board examinations (class X and class XII) were only allowed to re-sit the examinations as private candidates and were not allowed to attend regular classes in the government schools. However, from 2014 academic year, students who fail the examinations are allowed to repeat once as a full-time student in the same school provided they fulfill all the criteria of the Second Chance for Classes X & XII Policy.

Table 9.11 shows 12,925 students have registered for the BCSE in 2021. From that 12,813 appeared for the examination out of which 12,374 passed (96.57%).

Table 9.14 shows the students appearing for BHSEC Examinations and respective pass percentages for each subject.

## Chapter 10: Efficiency Indicators

The efficiency indicators give quantitative information on the quality of the system. The efficiency of the education system can be monitored by indicators such as repetition rate, dropout rate, promotion rate and survival rate, completion rate and transition rate at various levels of education.

### 10.1 Coefficient of Internal Efficiency in Basic Education

Table 10.1 shows the different coefficients of internal efficiency that inform on the quality of the education system in the country.

The survival rate measures the retention capacity and also the internal efficiency of an education system. Survival rates nearing 100% indicate a high level of retention and low incidence of dropout.

About 81.20% of children enrolled in grade PP reach the last grade of primary education (grade VI). It is also estimated that about 72.7% of children who enter the school system finally complete basic education (grade X).

Table 10.1: Coefficients of Internal Efficiency in Basic Education

| Coefficients                          | Gender     | PP     | I     | II    | III   | IV    | V     | VI    | VII   | VIII  | IX    | X     |
|---------------------------------------|------------|--------|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| Promotion rate                        | Both sexes | 94.4%  | 94.5% | 94.1% | 93.3% | 75.3% | 84.5% | 89.4% | 76.3% | 55.0% | 74.6% | 68.4% |
|                                       | Male       | 92.8%  | 93.6% | 92.4% | 91.7% | 71.3% | 81.2% | 87.0% | 73.1% | 56.9% | 71.9% | 68.6% |
|                                       | Female     | 96.1%  | 95.4% | 95.7% | 94.9% | 79.4% | 87.7% | 91.7% | 79.4% | 53.4% | 77.2% | 68.2% |
| Repetition rate                       | Both sexes | 4.7%   | 3.7%  | 4.2%  | 5.0%  | 21.8% | 12.5% | 8.0%  | 19.7% | 38.1% | 17.1% | 19.1% |
|                                       | Male       | 5.7%   | 4.2%  | 4.9%  | 5.7%  | 24.7% | 14.6% | 9.3%  | 21.8% | 34.4% | 19.0% | 18.4% |
|                                       | Female     | 3.6%   | 3.2%  | 3.4%  | 4.2%  | 18.9% | 10.5% | 6.7%  | 17.7% | 41.3% | 15.2% | 19.7% |
| Survival rate by grade before capping | Both sexes | 100.0% | 99.0% | 97.1% | 95.3% | 93.6% | 90.1% | 87.1% | 84.7% | 80.5% | 71.6% | 64.4% |
|                                       | Male       | 100.0% | 98.4% | 96.0% | 93.4% | 90.8% | 85.9% | 81.7% | 78.5% | 73.4% | 63.6% | 56.5% |
|                                       | Female     | 100.0% | 99.7% | 98.2% | 97.4% | 96.5% | 94.4% | 92.5% | 91.0% | 87.8% | 79.9% | 72.8% |
| Dropout rate                          | Both sexes | 0.9%   | 1.9%  | 1.8%  | 1.8%  | 2.9%  | 3.0%  | 2.6%  | 4.0%  | 6.9%  | 8.3%  | 12.5% |
|                                       | Male       | 1.5%   | 2.3%  | 2.7%  | 2.6%  | 4.0%  | 4.1%  | 3.6%  | 5.1%  | 8.7%  | 9.1%  | 12.9% |
|                                       | Female     | 0.3%   | 1.4%  | 0.9%  | 0.9%  | 1.7%  | 1.8%  | 1.5%  | 2.9%  | 5.3%  | 7.5%  | 12.1% |

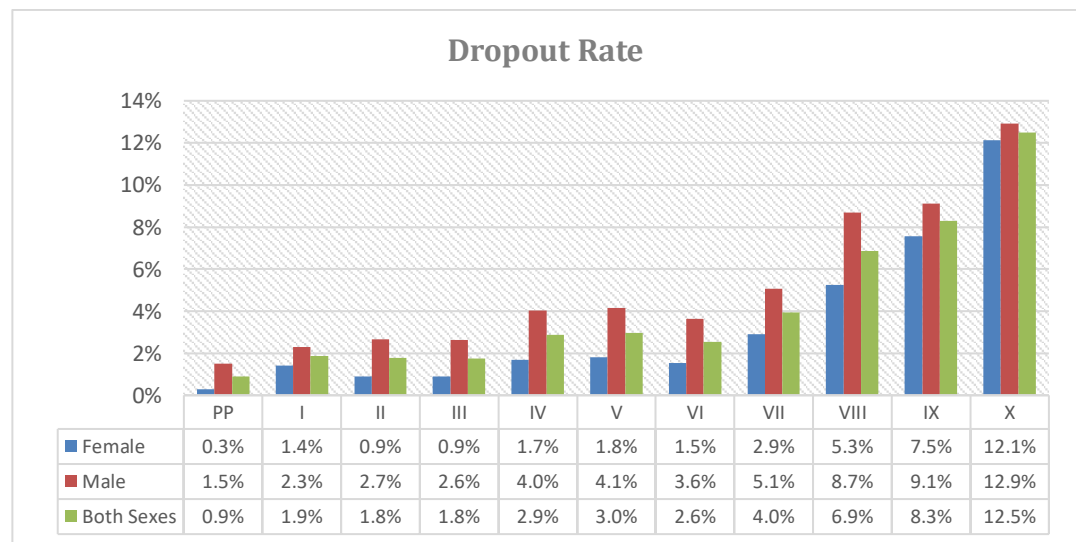

## 10.2 Repetition and Dropout Rates

In 2023, the highest repetition rate is noted at grade VIII (41.3%), followed by grade X (19.7%) and grade IV (18.9%) as presented in Figure 10.1.

Figure 10.1: Repetition Rates by Class and Gender

Figure 10.2: Dropout Rates by Class and Gender

The highest drop-out rate is in grade VIII followed by grade X as presented in Figure 10.2.

### 10.3 Transition Rate

The transition rate from primary to lower secondary education is recorded at 89.4%. This indicates that 89.4% of class VI students of 2022 will be promoted to class VII in 2023.

Likewise, 55.3% of the lower secondary (class VIII) students transition to middle secondary level (Class IX) and 68.7% of the middle secondary student's transition from class X to class XI at higher secondary level as presented in the Table 10.2.

Table 10.2: Transition Rates

|  | Female | Male | Total |
|--|--------|------|-------|
| <b>Transition rate from Primary to Lower Secondary Education</b>           | 91.7   | 87.0 | 89.4  |
| <b>Transition rate from Lower Secondary to Middle Secondary Education</b>  | 53.8   | 57.1 | 55.3  |
| <b>Transition rate from Middle Secondary to Higher Secondary Education</b> | 68.5   | 68.9 | 68.7  |

## Chapter 11: Education Facilities and Support Systems

To provide quality education, it is important that facilities in schools are adequate and up to date. This chapter presents the different facilities available in schools and their status.

### 11.1 School Feeding

The rapid expansion of the education system in terms of school enrollment over a short period of time can be attributed to the provision of free meals and boarding facilities.

As shown in Table 11.1, there are 88,784 students benefitting from the school feeding program as of 2023. 37,697 students avail three meals, 30,647 avail two meals and 22,089 students avail one meal. There are 46,179 female students and 42,605 male students benefitting from the school feeding programme in schools.

Table 11.1: Students Availing School Feeding Program

| Level              | 1 Meals      |              |              | 2 Meals      |              |              | 3 Meal       |              |              | All Meals    |              |              |
|--------------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|
|                    | Female       | Male         | Total        | Female       | Male         | Total        | Female       | Male         | Total        | Female       | Male         | Total        |
| ECR                | 11           | 12           | 23           | 495          | 480          | 975          | 0            | 0            | 0            | 506          | 492          | 998          |

### 11.2 WASH

Water, Sanitation and Hygiene in schools can have a significant positive impact on children's health and education outcomes. Studies show that safe, adequate water and sanitation facilities in schools coupled with hygiene education reduce the incidence of waterborne and hygiene-related diseases. WASH in schools also addresses the needs of adolescent girls to attend schools regularly.

#### 11.2.1 Water Facilities in Schools

Proper water facilities or even the presence of water supply in school can have a positive impact on children's health and education attendance.

74.4% of the water sources in schools are piped water and 8.2% is protected spring, as presented in Figure 11.1. 5.6% use surface water and 5.4% source from stored water. The remaining 6.2% of water sources are from rain water, tube well, and protected dug well and unprotected spring.

Figure 11.1: Type of water source in schools

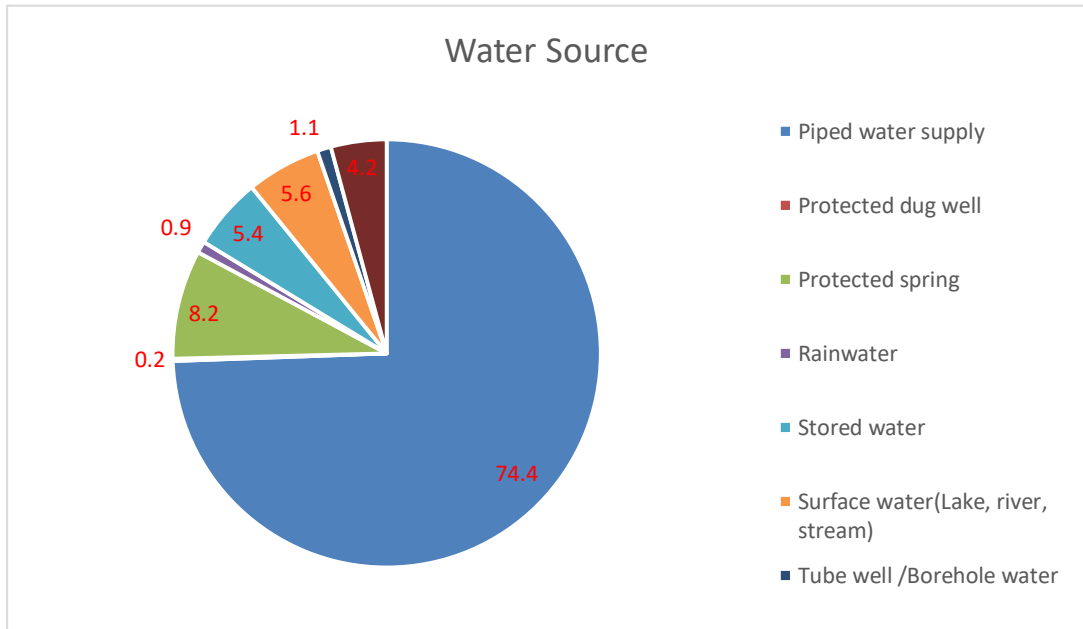

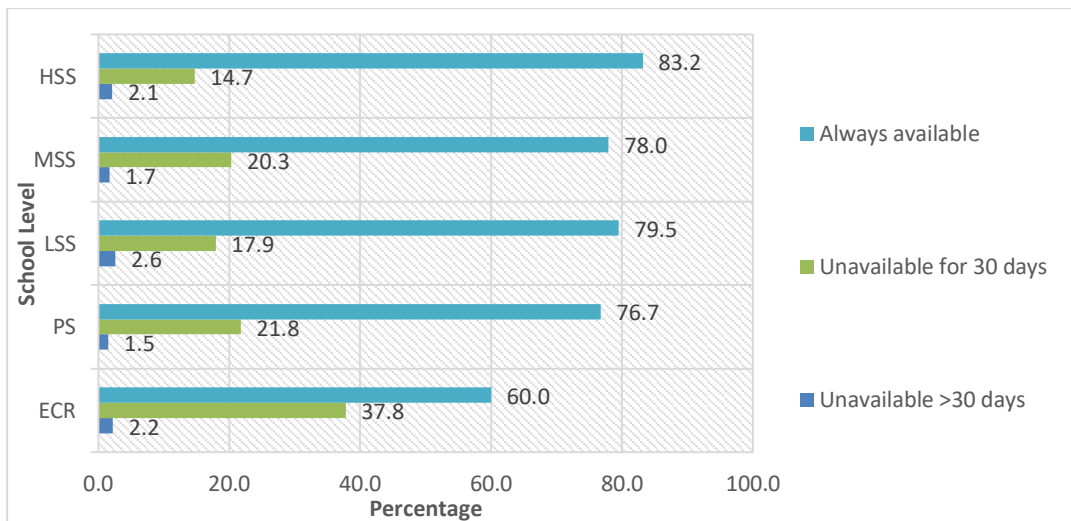

Figure 11.2: Water Source Functionality

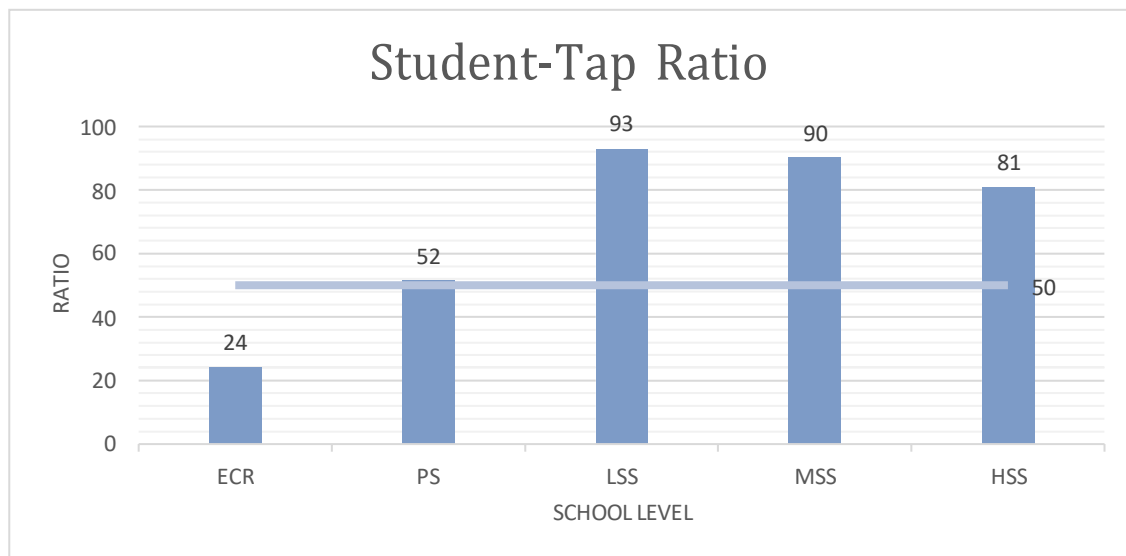

Functionality of uninterrupted water supply ranges from 83.2% in HSS to 60.0% in ECRs, as presented in Figure 11.2. Water supply to schools shows improvement every year but a significant number of schools still have underdeveloped water supply and functionality.

### 11.2.2 Student Tap Ratio

The international standard for the student-to-tap ratio is 1:50 or lower. Only the Extended classrooms meet the national standards in this regard, and the Primary level is close to meeting the national standard. However, at the Secondary level, the data shows that there is twice the number of students for every one tap, indicating a significant shortfall in meeting the standard.

Figure 11.3: Student-Tap Ratio

### 11.2.3 Access to Improved Sanitation

Most toilets in schools in the country are pour flush toilets (61.4 %) as shown in Figure 11.4. Aqua-privy toilets constitute 36.5% of the toilets in schools.

Figure 11.4: Types of Toilets in School

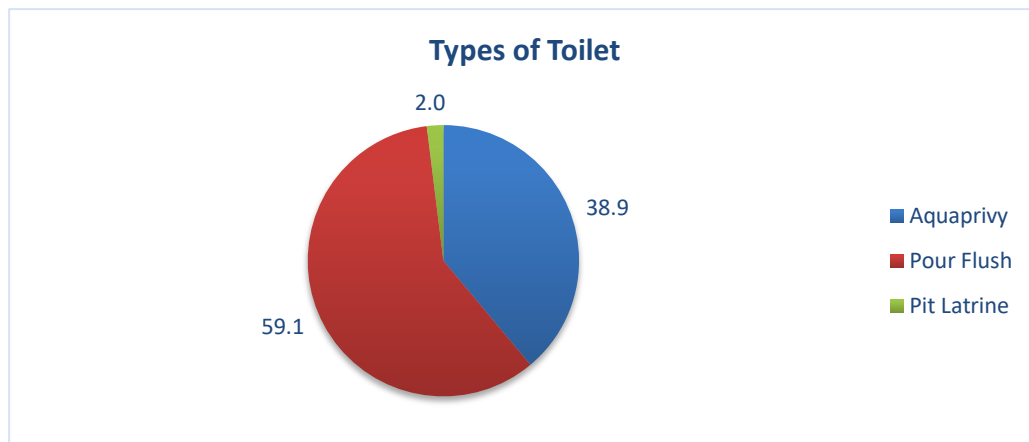

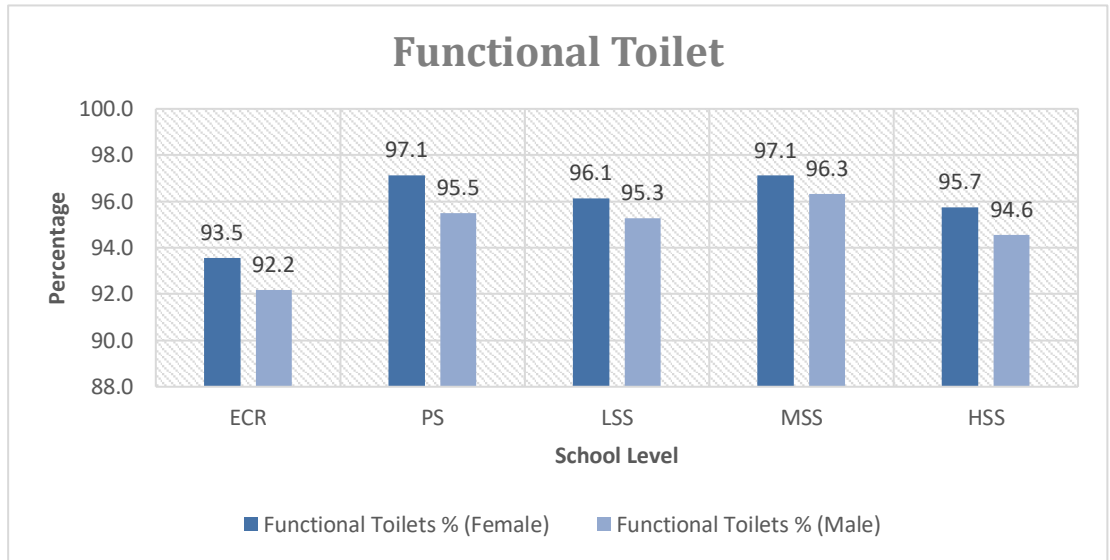

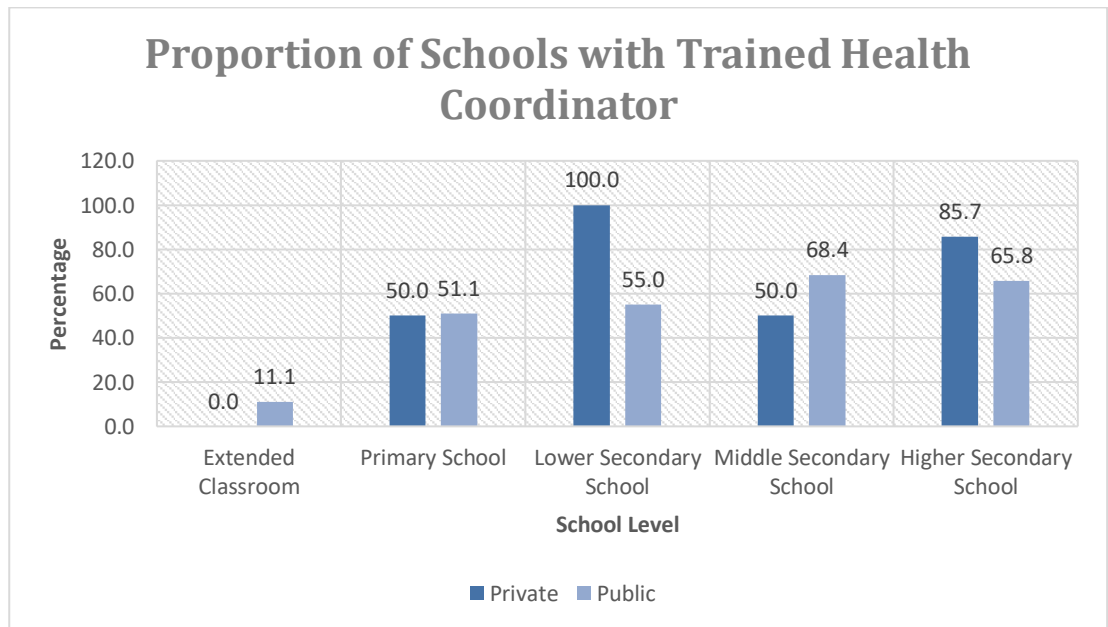

Figure 11.5: Toilet Functionality by Gender

In terms of functionality, 95.21% of toilets for male students are functional and 96.4% of toilets for female are functional.

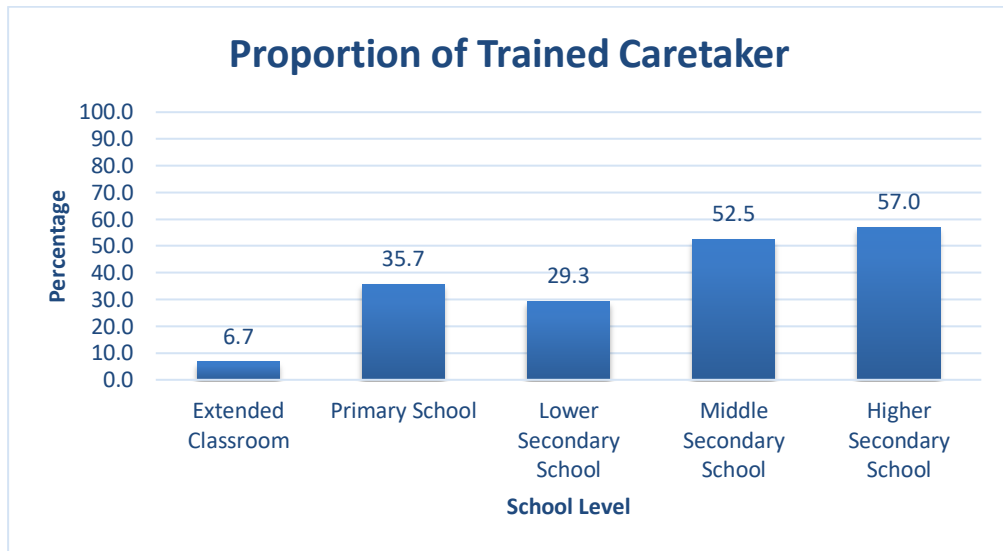

Figure 11.6: Proportion of Schools with Trained Health Coordinators

In public schools, Lower Secondary and High Schools have the highest proportion of trained health coordinators as presented in Figure 11.6. Schools are lacking adequate number trained health coordinators.

Figure 11.7: Proportion of schools with trained caretaker by level

38.2% of schools in the country have a trained school caretaker for maintenance and repair, as presented in Figure 11.7. The Higher secondary schools have the highest proportion of trained caretakers (57.0%) and ECRs have the lowest (6.7%).

## 11.3 Laboratories

Table 11.2: Laboratories in Schools

| Level                          | General Science Laboratory | Biology Laboratory | Chemistry Laboratory | Physics Laboratory | Computer Laboratory |

## 11.4 Computers

As of 2023, 544 public and 27 private schools have computers as shown in Table 11.3. There has been a gradual increase in the number of schools with computers as compared past years.

Table 11.3: Schools with Computer

| Type               | Level | Number of Schools | Number of Computer |

| <b>Overall Average</b> |       | 12                     |

Data source: STEM and Innovation Division

In order to arrive at a realistic student to computer ratio, the total number of students in schools with computers is divided by total number of computers in these schools and ECRs are excluded in averages. As of 2023, the average student to computer ratio for public schools is 10 students per computer while it is 14 students per computer for private schools. Overall, on average there are 10 students per computer. The student computer ratio sees a promising improvement this year with the ongoing implementation of the iSherig ICT Masterplan. The Ministry targets to achieve a student-computer ratio of 1:10 for secondary schools and 1:30 for primary schools.

## 11.5 Internet Connectivity

With regard to internet connectivity in schools, Table 11.5 shows that about 35.2% of the schools in the country do not have internet connectivity. 37.2% of public schools do not have internet connectivity while 2.9% of private schools do not have internet connectivity.

Table 11.5: Internet Connectivity in Schools

| Type               | Level | Number of Schools |                  | % of Schools without internet |

## 11.6 Access to Motor Roads

Access to motor roads is important for effective management and communication. It enables supply of goods, teaching and learning materials and facilitates the movement of teachers and students. Around 6% of public schools do not have access to motor roads while 5.6% private schools have access to motor roads.

Table 11.6: Road Accessibility

| Dzongkhag                | Number of Schools |                     | % of Schools without Road Access |

## 11.7 Electricity

About 1.2% of public schools do not have electricity while all private schools have electricity, as shown in Table 11.7.

Table 11.7: Electricity

## Chapter 12: Budget and Expenditure

The Bhutanese education system is built upon the concept of free services from primary to tertiary level. Students are not only given free tuition but also provided with textbooks, sports-items and learning materials as well as stationery and boarding facilities and food based on need. At the same time, cost-sharing is also encouraged amongst those populations that are in a position to contribute to their children’s education. Accordingly, students studying in the urban areas arrange their own stationery.

In general, all students are required to contribute to the School Development Fund at the following rates:

- Primary Schools (PP-VI): Nu. 30/- per student per annum
- Lower Secondary Schools (VII-VIII): Nu. 100/- per student per annum
- Middle and Higher Secondary Schools (IX-XII): Nu. 200/- per student per annum
